Recent Developments

Global News

- The **World Health Organization** is tracking a new Omicron sub-lineage, referred to as BA.2.75, which is becoming more common in India. Reportedly first detected in India last May, it now accounts for nearly a quarter of the country's recent sequences.
- A senior official of the **European Medicines Agency** warned that a new wave is sweeping across Europe, driven by Omicron sub-variants. The increase in transmission among older age groups is "starting to translate into severe disease," and those aged 60–79 are recommended to get a second booster.

Regional News

- In **China**, the city of Xi'an was partially shut down last Wednesday, after it reported the economy's first outbreak related to Omicron sub-variant BA.5. Restrictions will be in place for 7 days. In Shanghai, karaoke bars have also been ordered to close.
- **Hong Kong** yesterday suspended a rule that banned individual flights for bringing in passengers infected with COVID-19. All arrivals will still need to spend at least a week in hotel quarantine and comply with testing requirements.
- Amid a rise in community cases, **Singapore** health authorities announced yesterday that there will be caps on the number of visitors to hospitals and residential care homes, starting July 7 to August 3. Visits will also be limited to 30 minutes.

Vaccine News

- **Australia** is expanding its rollout of the fourth dose of COVID-19 vaccines to those aged 30 and above starting Monday, July 11. The second booster dose is currently restricted to the 65-and-above age group, or to those with serious illness.
- **Israel** approved the vaccination of children aged 6 months to 5 years last Wednesday. Priority is given to those with chronic illness or undergoing medical treatment.
- Earlier this week, the **US** Food and Drug Administration has authorized state-licensed pharmacists to prescribe Pfizer's antiviral drug, Paxlovid, to eligible patients to help improve access to timely treatment.

1/ Values show the 7-day average.

2/ Since January 31, 2020.

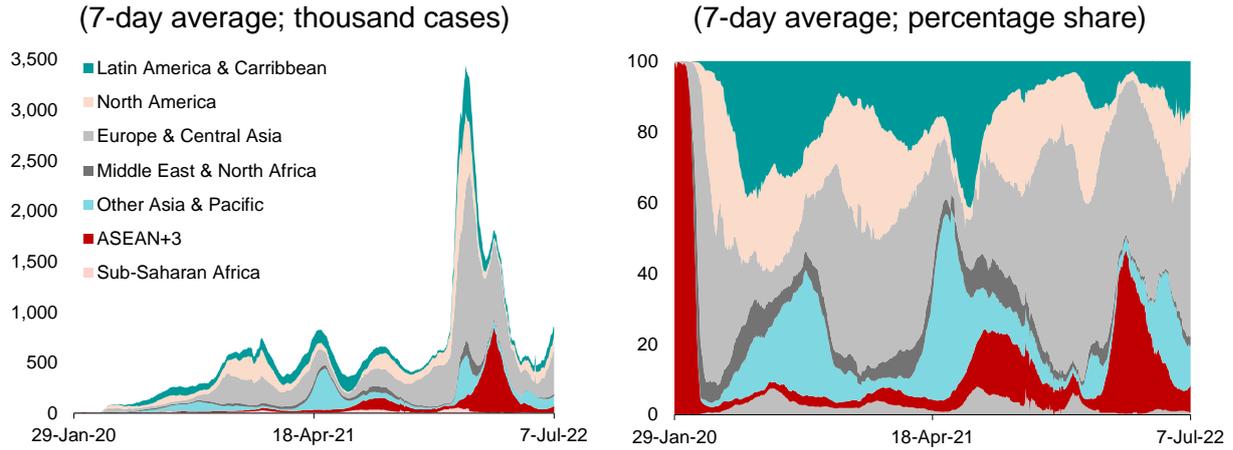

ASEAN+3 and Selected Economies: Vaccination Coverage Status (Percent of population)

Sources: Our World in Data via Haver Analytics; and AMRO staff calculations.

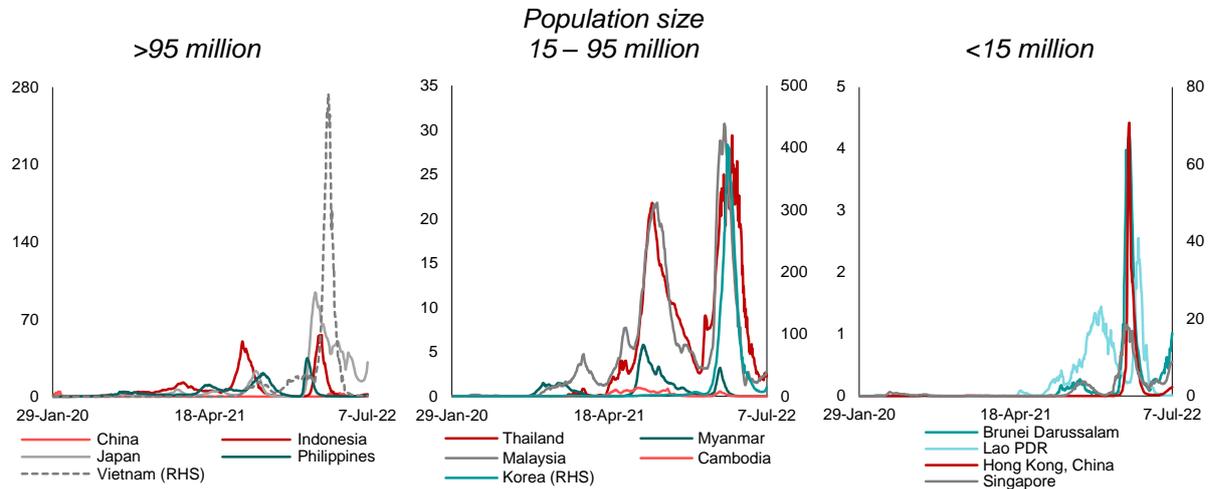

Note: Percent of fully vaccinated population shows the number of people who received all doses prescribed by the vaccination protocol (e.g. one dose of a single-dose vaccine, or two doses of a two-dose vaccine). In the event of discrepancy between data from Our World in Data and national authorities, data from national authorities take precedence.

World: New Cases by Region

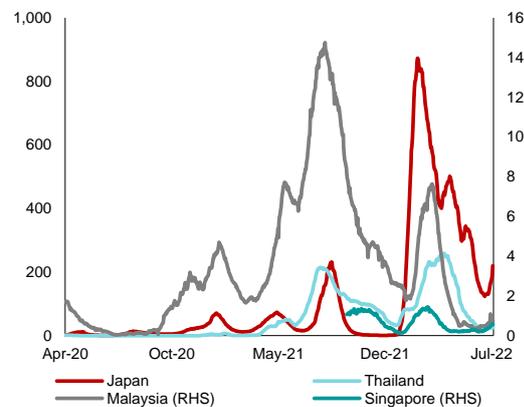

ASEAN+3: Daily New Cases by Size of Population

(7-day average; thousand cases)

Selected ASEAN+3: COVID-19 Hospitalizations
(Thousand persons)

Selected ASEAN+3: Aggregate Non-Residentials Mobility
(Percentage change from baseline; 5-day moving average)
