Recent Developments

Global News

- GISAID, a global data science initiative confirmed that latest data shows no new COVID-19 variant has emerged from the surge of cases in **China**.
- **India** will make a COVID-19 negative test mandatory for travelers from China, Hong Kong, Japan, South Korea, Singapore and Thailand from Jan 1, 2023.

Regional News

- **Japan** and **Korea** will require negative COVID-19 test upon arrival for travelers arriving from **China** starting today. The governments will also not allow airlines to increase the number of flights from and to China.
- **Malaysia** will be screening all international visitors for fever and testing wastewater samples from aircraft arriving from China.
- There is no change to Singapore's COVID-19 rules for travelers and work pass holders arriving from China.
- **Thailand's** Tourism and Sports Minister has called for booster shots for tourists and local tourism workers in preparation for the return of Chinese travelers.
- The **Cambodian** government has urged residents to get vaccinated against COVID-19 when they are eligible. Currently, more than 25 percent of the population have yet to receive a third dose.

Vaccine News

- **India** has successfully isolated the virus strain that is driving the surge of COVID-19 cases in several countries, including **China**. The isolated sample is being used to assess the efficacy of available vaccines.
- Vaccination coverage reported by **Africa** is set to almost double from 26 percent to 42 percent as the **Africa** CDC changes the way it reports vaccination rates to focus only on the eligible population — those aged 12 and above.

1/ Values show the 7-day average.

2/ Since January 31, 2020.

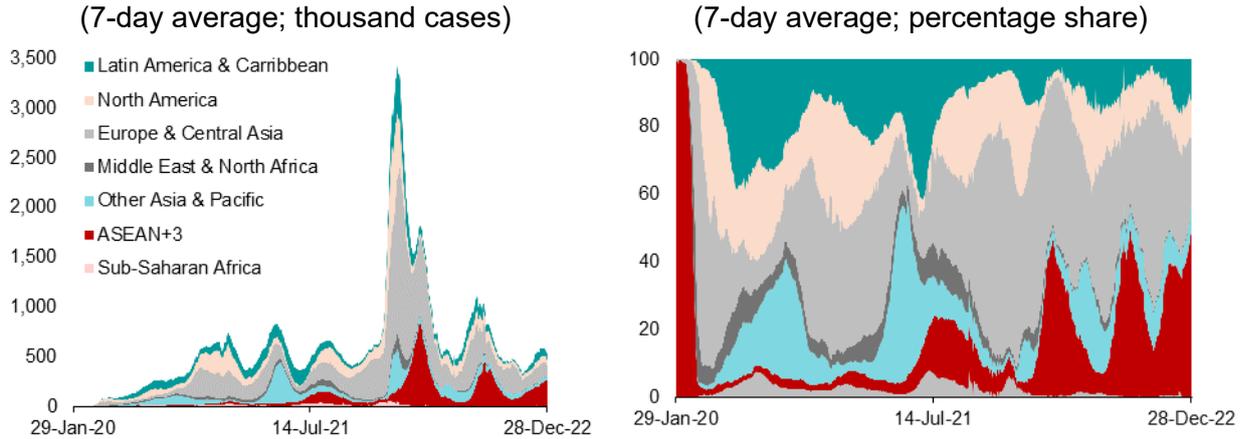

ASEAN+3 and Selected Economies: Vaccination Coverage Status (Percent of population)

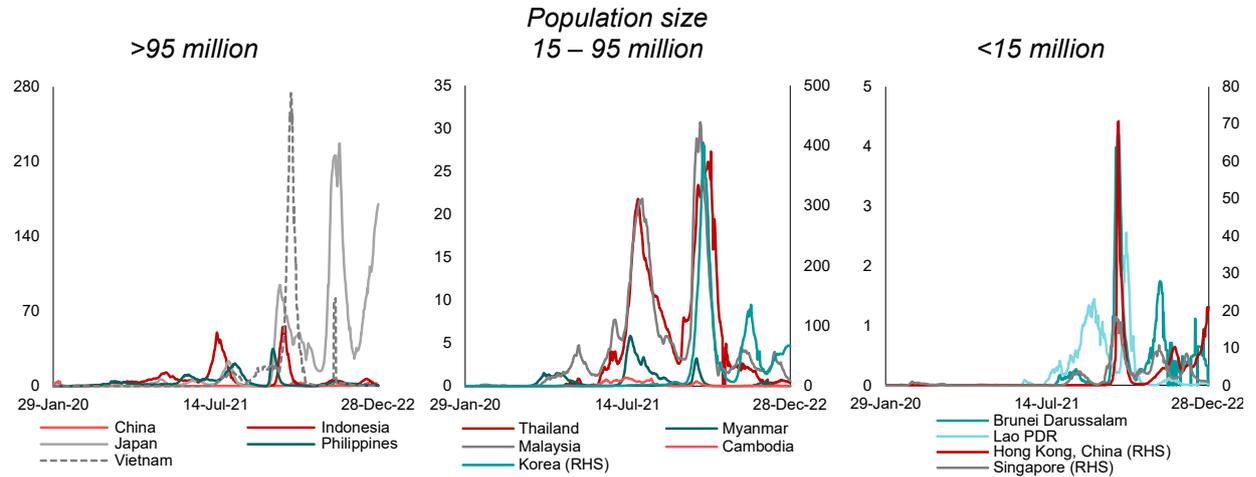

Sources: Our World in Data via Haver Analytics; and AMRO staff calculations.

Note: Percent of fully vaccinated population shows the number of people who received all doses prescribed by the vaccination protocol (e.g. one dose of a single-dose vaccine, or two doses of a two-dose vaccine). In the event of discrepancy between data from Our World in Data and national authorities, data from national authorities take precedence.

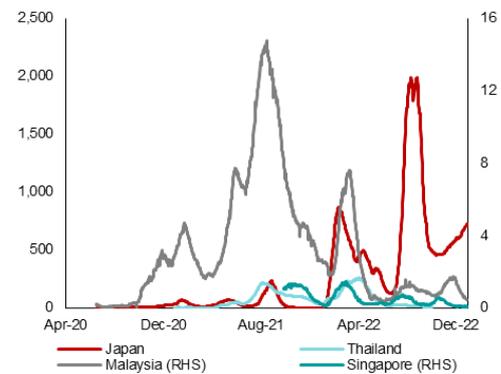

World: New Cases by Region

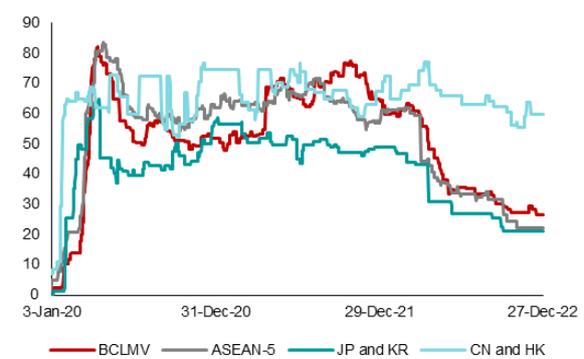

ASEAN+3: Daily New Cases by Size of Population

Selected ASEAN+3: COVID-19 Hospitalizations

ASEAN+3: Government Response Stringency Index

Note: The stringency index records the strictness of “lockdown-style” policies that primarily restrict people’s behavior. The index is a composite measure based on nine response indicators: (1) school closing; (2) workplace closing; (3) cancellation of public events; (4) restrictions on gatherings; (5) closure of public transport; (6) stay-at-home requirements; (7) restrictions on internal movement; (8) international travel controls; and (9) public information campaigns. The indicators are scaled to a value from 0 to 100 (100 = tightest). ASEAN-5 = Indonesia, Malaysia, the Philippines, Singapore, and Thailand; BCLMV = Brunei, Cambodia, Lao PDR, Myanmar, and Vietnam.
