## Recent Developments

### Global News

- The **World Health Organisation (WHO)** reported that the XBB COVID-19 subvariant has been reported by 26 countries. Available preliminary laboratory-based evidence suggests that XBB is the most antibody-evasive variant identified to date.
- **Spain** has dropped all entry requirements for visitors from all countries, including those from outside the European Union.

### Regional News

- In **Singapore**, the waiting time for admission has surged to as high as 50 hours at some hospitals as of Wednesday, as public emergency departments across the country continue to see a high number of new cases.
- The **Philippines** has reported its first cases of the COVID-19 XBB Omicron subvariant and XBC recombinant. The Department of Health said it does not see any need to tighten health protocols for now.
- **China** is considering shortening the duration of quarantine for inbound visitors from ten to seven days: two days in a hotel and then five days at home. In Beijing, authorities strengthened public checks and locked down some residential compounds after cases quadrupled in recent weeks.

### Vaccine News

- **Singapore** will make available the bivalent COVID-19 boosters to those aged 18-49 later this year as more supplies are secured, the Minister for Health said on Thursday.
- The **United States** Centers for Disease Control and Prevention (CDC) advisory committee on vaccines on Thursday approved adding COVID-19 vaccines to the agency's recommended immunization schedules for both children and adults.
- The **U.S.** Food and Drug Administration announced Wednesday that it has authorized a booster shot for Novavax's Covid-19 vaccine.

## ASEAN+3 and Selected Economies: Vaccination Coverage Status (Percent of population)

Sources: Our World in Data via Haver Analytics; and AMRO staff calculations.

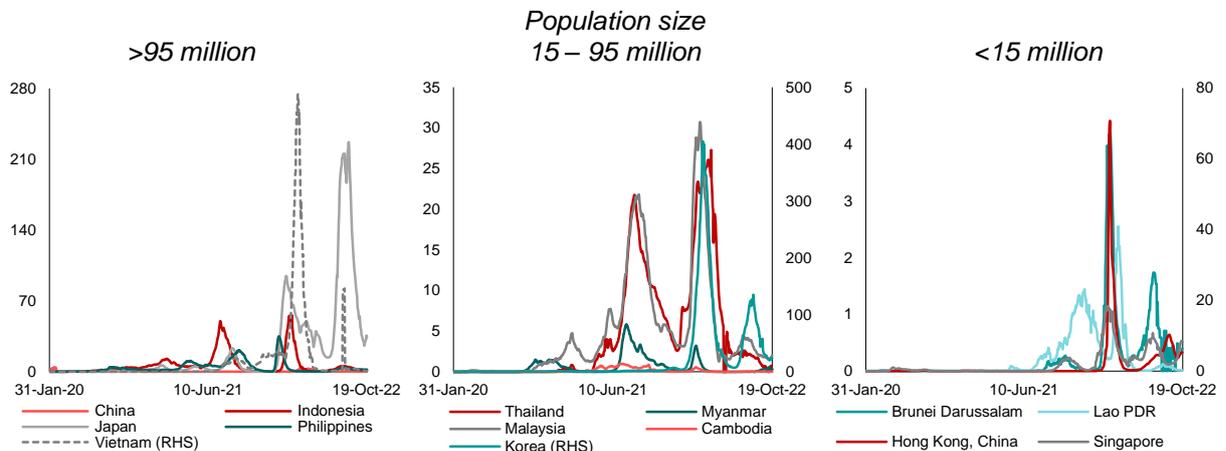

Note: Percent of fully vaccinated population shows the number of people who received all doses prescribed by the vaccination protocol (e.g. one dose of a single-dose vaccine, or two doses of a two-dose vaccine). In the event of discrepancy between data from Our World in Data and national authorities, data from national authorities take precedence.

### World: New Cases by Region

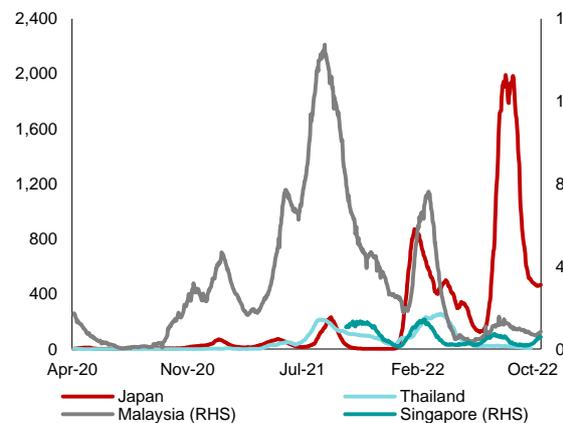

### ASEAN+3: Daily New Cases by Size of Population

(7-day average; thousand cases)

### Selected ASEAN+3: COVID-19 Hospitalizations

(Thousand persons)

### Selected ASEAN+3: Aggregate Non-Residential Mobility

(Percentage change from baseline; 5-day moving average)
