Recent Developments

Global News

- The **UK** reported 42,484 cases, the highest in the past five weeks. One in 15 children aged 10 to 19 are estimated to have contracted COVID-19 in the week of October 2.
- In **Australia**, cases in Sydney fell to their lowest in two months after the city exited a nearly four-month lockdown this week. Pubs, cafes and stores have reopened in New South Wales.
- **New Zealand** will require teachers and workers in the health and disability sectors to be fully vaccinated. Lockdown in Auckland is extended for another week.

Regional News

- **Thailand** will reopen quarantine-free tourism to fully vaccinated foreign travelers arriving via air travel from low-risk countries in November. Tourists are required to show negative PCR test before departure and upon arrival.
- **Korea** will donate 1.1 million doses of AstraZeneca's COVID-19 vaccine to Vietnam and 470,000 doses to Thailand.
- **Malaysia** has reopened interstate and international travel after fully vaccinating 90 percent of the adult population.
- **Indonesia** plans to reopen Bali and the Riau Islands to international tourists from selected countries by October 14. About 98 percent of Bali's population and 83 percent of Riau Islands' population have received at least one dose of COVID-19 vaccine.

Vaccine News

- **WHO** recommends that immunocompromised people be given an additional vaccine dose due to higher risk of breakthrough infections after standard immunization.
- A **French** study of 22.6 million people over the age of 50 has found that vaccination reduces the risk of death and hospitalization by 90 percent. The results were the same between the Pfizer-BioNTech, Moderna or AstraZeneca vaccines.

ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

Source: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
