Recent Developments

Global News

- **G20** health ministers pledge to support the vaccination of 40 percent of global population against COVID-19 by end-2021, in line with the **WHO's** target. **WHO** aims to vaccinate 10 percent of global population by end-September, and 70 percent by mid-2022.
- Confirmed cases continue to surge in **Australia**, with New South Wales accounting for more than half of the number of new cases. Authorities in Victoria plan to ease mobility restrictions after first dose vaccinations reach 70 percent from 60 percent currently.
- Apart from Auckland, the nationwide lockdown in New Zealand will be lifted on September 8 after the recent surge in cases has been contained.

Regional News

- Cases in **Indonesia** continued on its 6-week declining trend. Tourist sites in Java are reopening gradually and diners are allowed to stay up to an hour in restaurants.
- Beginning September 15, up to 2,000 non-**Hong Kong** residents per day from **China** and **Macau** will be allowed to visit **Hong Kong** without the need for quarantine.
- Despite fully vaccinating more than 80 percent of its population, **Singapore** does not rule out tightening restrictions if locally transmitted cases continue to rise.
- **Japan** has secured 150 million doses of Novavax vaccine to be manufactured domestically. The vaccines are pending regulatory approval and are expected to be distributed by early-2022.

Vaccine News

- The **European Medicines Agency** has started an accelerated review on the need for Pfizer-BioNTech's booster doses.
- **Israel** has begun offering booster doses to residents aged 12 years and older, 6 months after their second dose of the Pfizer-BioNTech vaccine.
- **Chile** has approved the use of Sinovac vaccine for children aged six years and older.

ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
