Recent Developments

Global News

- Cases in the **United States** more than doubled since two weeks ago, with surging hospitalization in states with low vaccination rates.
- Patients in critical care in **France** rose by 111, the highest daily increase since early-April. Cases rose to levels last seen in early-May, driven largely by the Delta variant.

Regional News

- **Singapore** has relaxed restrictions today, including allowing dine-in. Restrictions will be eased further on August 19 when 80 percent of the population has been vaccinated.
- **Malaysia** has eased restrictions for fully vaccinated individuals, including allowing returning residents to serve quarantine at their own residence. Further reopening will be contingent on symptomatic hospitalization and vaccination progress.
- The US CDC warned against travel to **Thailand** after cases surged to record high of more than 20,000 per day.
- **Cambodia** is expanding quarantine facilities at the provinces bordering with **Thailand**, in anticipation of the influx of workers returning from **Thailand**.
- Confirmed cases in **Japan** more than tripled since end-July following the rapid spread of the Delta variant. Tokyo remains under a fourth state of emergency, amid increasing calls for a nationwide state of emergency.

Vaccine News

- **Korea** approved Phase III trial for its first homegrown protein-based vaccine, developed by **SK Bioscience**. Data from early trials showed that it induced neutralizing antibodies.
- **US-based Inovio Pharmaceuticals** will launch a global late-stage trial of its vaccine candidate next month, focusing on Latin America, Asia Pacific and African regions.

ASEAN+3 and Selected Economies: Confirmed COVID-19 Cases and Deaths

| Economy | Total Cases ('000) | Cases per 1M Population | New Cases ¹ | New Cases ¹ since 2020 ² | New Cases per 1M Pop. ¹ | ΔNew Cases ¹ | Δ% New Cases ¹ | Total Deaths | New Deaths ¹ | Fatality Rate (%) |

ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
