## Recent Developments

### Global News

- Amid concerns over the spread of the delta variant in **Australia, New Zealand** on Friday suspended its quarantine-free travel bubble again for at least eight weeks. New Zealanders have seven days to return home.

### Regional News

- In **Vietnam**, amid an ongoing surge in cases, Ho Chi Minh City has been placed under a strict lockdown, with residents no longer allowed to go out between 6pm and 6am, except for medical emergencies or food.
- Thailand** confirmed more than 15,000 new cases, a daily record for a second consecutive day.
- The emergency restrictions currently in place in **Indonesia** were extended for another week, though with some modifications.
- After reporting a record of more than 17,000 new cases on Monday, **Malaysia's** cumulative number of confirmed cases surpassed the 1 million mark.
- Cases in **Lao PDR** have further increased, many imported by returning migrant workers. The lockdown was extended until August 3.
- 31 local cases were reported in **China** yesterday, down from 40 a day earlier, due to an outbreak of the delta variant in the city of Nanjing. Nanjing has restricted outbound travel.

### Vaccine News

- In the **EU**, Moderna's COVID-19 vaccine "Spikevax" has been approved for use in children aged 12 to 17 years, following a study of 3,732 children.

## ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

## ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
