## Recent Developments

### Global News

- Authorities in **United Kingdom** are looking to end COVID-19 restrictions on July 19, despite the continued increase in daily new infections. Once the decision is finalized next week, formal limits on social distancing will be lifted, along with “work from home” instructions and the mandatory wearing of masks.
- New South Wales, **Australia**'s hardest-hit state in the current outbreak, recorded 35 new infections last Saturday, its highest daily figure for the year. Authorities will decide in the next two days on whether Sydney's two-week lockdown will be lifted on July 9.

### Regional News

- **Myanmar** reported around 2,960 new infections today, its highest daily figure yet, pushing total confirmed cases above 168,000. Authorities have imposed stay-home measures on Mandalay, the economy's second largest city, last Friday.
- **Indonesia** saw new daily highs yesterday, when it recorded at least 29,700 new infections and nearly 560 fatalities. The recent surge in cases is seeing oxygen shortages in several areas, and the government has reportedly asked oxygen producers to send all their supplies to hospitals and clinics.
- Authorities in **Japan** are looking to extend its quasi-state of emergency in Tokyo and three nearby prefectures beyond the original end-date of July 11, ahead of the opening of the Olympic Games on July 23. The decision is set to be finalized this Thursday.

### Vaccine News

- One million doses of the Pfizer-BioNTech vaccine donated by the United States arrived in **Malaysia** yesterday. These were from the initial batch of 80 million US-made vaccines that the US government pledged last month to donate to other economies.
- Results from the Phase 3 trials of **India**'s Bharat Biotech **Covaxin** showed that it is 93.4 percent effective against severe symptoms of the virus. The vaccine also showed a 65.2 percent protection against the delta variant.

## ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.  
 Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

## ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.  
 Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
