Recent Developments

Global News

- **India** started vaccinating all citizens over 18 years old for free yesterday. The central government has also taken over procurement of vaccines from the states.

Regional News

- **Myanmar** reported 595 cases yesterday, the highest daily tally in more than five months.
- **Indonesia** recorded a new high of 14,536 cases yesterday. The total number of confirmed cases has surpassed 2 million. Mobility restrictions in some areas will be tightened for two weeks from today.
- At the **Tokyo Olympics**, spectators will be allowed with 50 percent of capacity and up to a maximum of 10,000 people per venue. If the virus situation worsens, spectators could still be banned.
- **China** has now administered more than 1 billion doses of Covid-19 vaccines. All vaccines in use are two-dose regimens.
- The **Philippines** has signed a deal for 40 million doses of the Pfizer/BioNTech vaccine, its biggest coronavirus vaccine deal so far.
- Two start-ups in **Singapore** have developed Covid-19 breath tests, delivering results in less than 2 minutes. The devices are currently undergoing trials.
- Researchers at the University of **Hong Kong** have developed a new sewage test able to identify different variants of the virus.

Vaccine News

- According to the director of the Gamaleya Institute, the **Russian-made vaccine Sputnik V** protects against all known major virus mutations.
- **Cuba** has released Phase 3 trial data for two out of five domestically developed vaccines. The Soberana 2 vaccine showed 62% efficacy after two of its three doses, with the final results for three doses expected in a few weeks. Another three-dose shot, Abdala, was found to be 92% effective.

ASEAN+3 and Selected Economies: Total Vaccines Administered

(Per 100 population)

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

(Percent of population)

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
