Recent Developments

Global News

- Confirmed cases in **India** remained on a downward trend, with daily cases averaging below 200,000 cases for the tenth consecutive day. India has reopened several major cities, including New Delhi and Mumbai.

Regional News

- Thailand** started its mass vaccination program yesterday, with a target to administer six million doses of AstraZeneca and Sinovac vaccines nationwide within the month. Confirmed cases remained on a downward trend from a month ago.
- The **Philippines** has approved the emergency use of Sinopharm vaccine, amid efforts to accelerate inoculation. Excluding the Sinopharm vaccines, more than 11 million doses from various vaccine manufacturers are expected to be received this month.
- Phnom Penh Governor has reiterated that he has not considered reimposing a curfew.¹ Average new cases in **Cambodia** remained above 600 for the eighth consecutive day.

Vaccine News

- Singapore's** expert committee on COVID-19 vaccination has stated that there is no evidence that inactivated virus vaccines demonstrate higher efficacy against COVID-19 variants than messenger RNA (mRNA)-based ones.
- UNICEF** has urged **G7** economies to expedite their pledged donation of COVID-19 vaccines to low-income countries. UNICEF emphasized the need for steady stream of vaccines for low-income countries to protect vulnerable groups across the world, and to stem the rapid spread of new variants.

¹ The June 4, 2021 edition of the COVID Monitor erroneously identified Cambodia as having imposed a "2-week lockdown on Phnom Penh". The containment measures that were introduced on June 2, 2021 were to temporarily suspend for 14 days beginning June 3, 2021, the activities of work, occupations or businesses that may pose high risk of COVID-19 transmission and to ban the private gathering of more than 15 people. Essential services are allowed to operate.

ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
