Recent Developments

Global News

- Daily new infections in India have fallen below the 300,000-mark for the fifth consecutive day yesterday. Total confirmed cases stood above 26 million.
- Members of the **European Union** have agreed to ease COVID-19 travel restrictions on non-EU visitors ahead of the summer tourist season. All 27 economies approved the European Commission's proposal that loosens the criteria to determine "safe" economies and allows vaccinated foreigners to enter.

Regional News

- In **Japan**, authorities are set to put Okinawa under the state of emergency, adding to 9 other prefectures—which includes Tokyo and Osaka—that are currently under the rule. Once the decision is formalized, Okinawa could be under the emergency declaration from this coming Sunday up to June 20.
- **Vietnam** last Tuesday ordered the shutdown of four industrial parks due to a surge in infections among factory workers in its northern province of Bac Giang. The closure, which could be in place for at least two weeks, affects production plants of electronics manufacturer Foxconn.
- **The Philippines** will stop announcing in advance the manufacturer of the vaccine being used in vaccination centers starting today. The new policy came after people crowded venues that are administering the Pfizer-BioNTech vaccine. Individuals scheduled for vaccination, however, will still be informed of the brand onsite.

Vaccine News

- **Japan** today formally approved the two-dose use of the Moderna and AstraZeneca vaccines for those aged 18 and above, adding to the earlier approved vaccine from Pfizer. However, AstraZeneca's schedule of use will be on hold, as authorities continue to monitor the blood clot cases earlier reported overseas.
- **Korea** approved the use of Moderna's vaccine today, after two of three expert panels recommended its approval. It is Korea's fourth vaccine allowed for domestic use.

ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

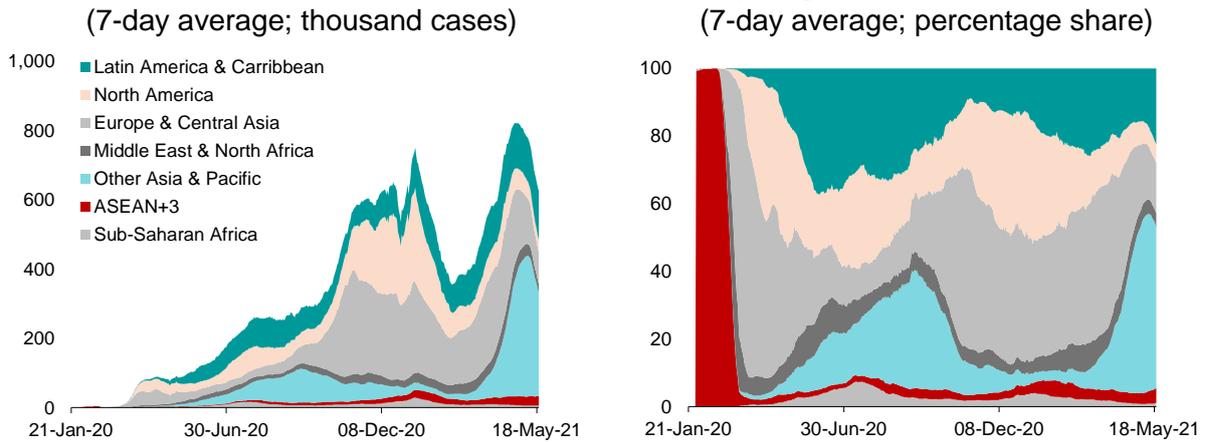

ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

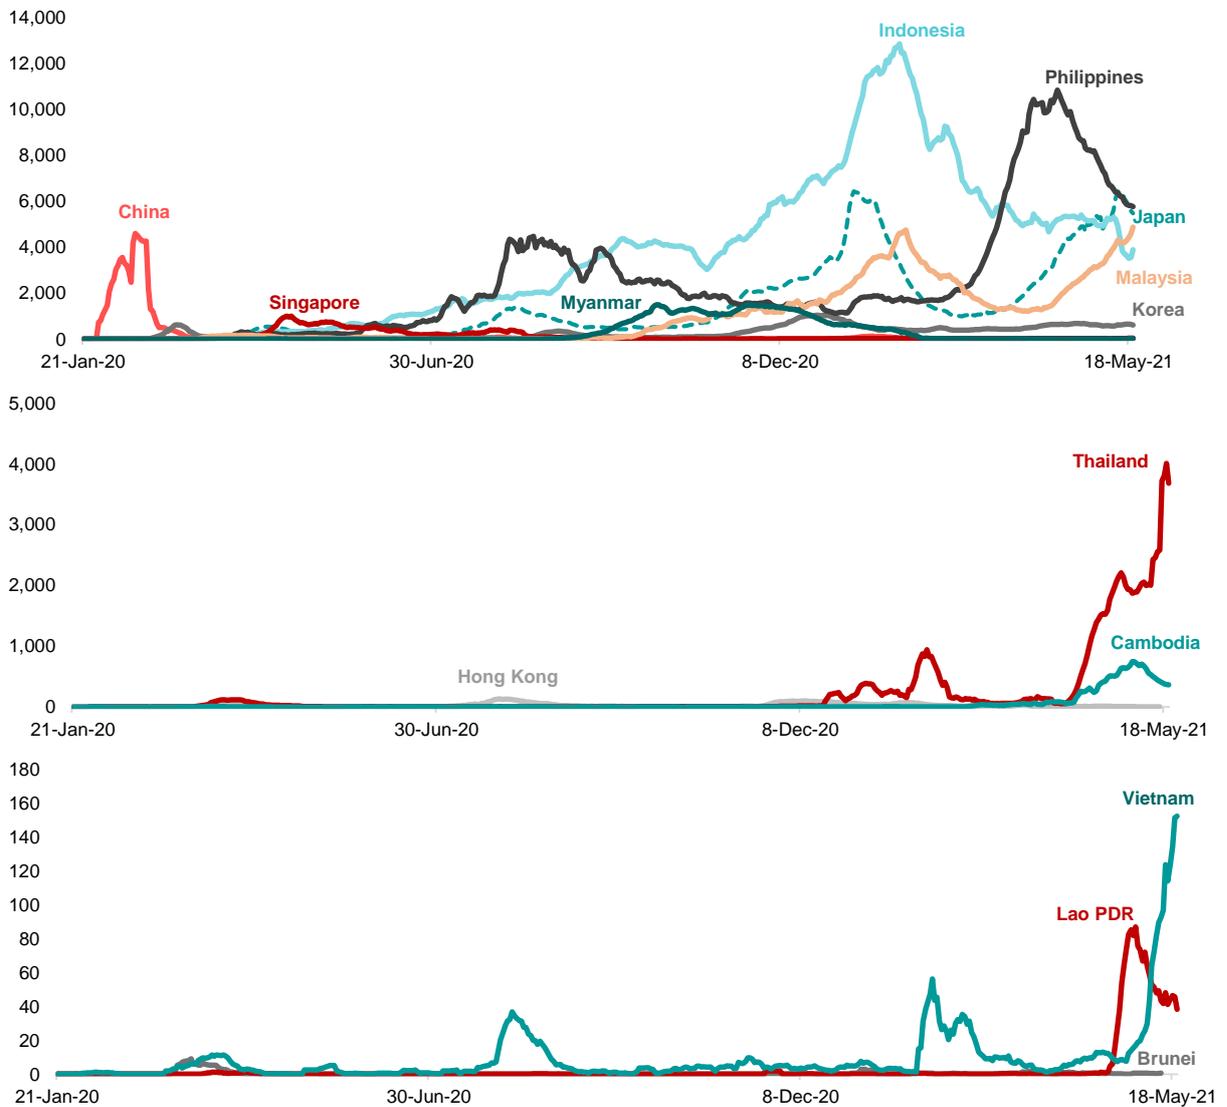

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
