## Recent Developments

### Global News

- Total cases in **India** neared 13 million yesterday after reporting at least 131,000 new infections, the highest single-day increase. Yesterday marked the fourth-straight day of daily new cases above 100,000.
- **New Zealand** is suspending entry for all travellers coming from India, including its own citizens, for at least two weeks. The suspension will begin on April 11, and will apply to those who have been in India in the past 14 days.

### Regional News

- **Korea** will keep its current social distancing rules for the next three weeks, effective Monday next week. Restrictions include a ban on bars and clubs in the greater Seoul area and Busan, while curfews on other businesses will be adjusted accordingly.
- In **Japan**, authorities are set to put Tokyo and two other prefectures under tighter restrictions. Measures include restaurants and bars closing by 8 in the evening, and capping attendance to large events at 5,000.
- **Indonesia** yesterday announced a ban on domestic travel during next month's Eid al-Fitr celebrations, from May 6 to 17, to curb virus transmission. All modes of travel will not be allowed.
- **Thailand** is considering to close entertainment venues in Bangkok and 40 other provinces, ahead of the Songkran festival next week. Earlier on Wednesday, authorities confirmed the first domestic case linked to the UK variant.

### Vaccine News

- **Portugal** yesterday temporarily suspended the use of the AstraZeneca vaccine for people under the age of 60, due to possible links between the vaccine and rare cases of blood clots and low platelets. Earlier on Wednesday, neighbor **Spain** also limited the vaccine's use to those between 60 to 65 years old. In the ASEAN+3 region, **the Philippines** did a similar move yesterday, suspending the use of the vaccine for people under 60.

### ASEAN+3 and Selected Economies: Total Vaccines Administered (Per 100 population)

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

### ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage (Percent of population)

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
