Recent Developments

Global News

- **India** has overtaken Brazil as the second most affected country, after recording at least 168,000 new infections yesterday and pushing its total infections to 13.5 million. Maharashtra, home of financial capital Mumbai, has imposed a “weekend” lockdown, banning nonessential services every weekend until the end of this month.

Regional News

- Vaccinated individuals in Hong Kong will eventually be able to dine out in bigger groups, as part of authorities’ plan to slowly ease current social distancing measures. Those inoculated will also become eligible for limited travel under “vaccination bubbles.” Current restrictions, nonetheless, will be in place for two more weeks.
- **Thailand** saw at least 980 new infections yesterday, a daily record. All but five of yesterday’s cases were locally transmitted. Ahead of the major Songkran holidays, authorities have discouraged unnecessary travel and big gatherings.

Vaccine News

- In the **United States**, vaccine manufacturers **Pfizer** and **BioNTech** applied for emergency use authorization that will allow their vaccine’s use on adolescents aged 12 to 15 years old. Results from Phase 3 clinical trials showed that the vaccine produced robust antibody responses in this age group.
- **Japan** began vaccinating its elderly yesterday, the second priority group after health workers. By the end of June 2021, all municipalities could have enough doses to fully vaccinate the elderly with two shots. The next to be inoculated are those with chronic health conditions and nursing home staff, followed by the general public.
- **China** is considering to mix vaccines to boost the efficacy of those that do not have high rates of protection, according to media reports. Possible options include changing the number of doses, or adjusting the length of time between injections.

ASEAN+3 and Selected Economies: Confirmed COVID-19 Cases and Deaths

Economy	Total Cases ('000)	Cases per 1M Population	New Cases ¹	New Cases ¹ since 2020 ²	New Cases per 1M Pop. ¹	ΔNew Cases ¹	Δ% New Cases ¹	Total Deaths	New Deaths ¹	Fatality Rate (%)

ASEAN+3 and Selected Economies: Total Vaccines Administered

Source: Haver Analytics, sourced from Our World in Data; and AMRO staff calculations.

Note: Single vaccination doses only. This does not measure the number of people vaccinated, as two doses are required with most available vaccines. Data is reported at irregular intervals; numbers show latest available.

ASEAN+3 and Selected Economies: Vaccinations and Aspired Population Coverage

Sources: Our World in Data via Haver Analytics; various media sources; Economist Intelligence Unit; and AMRO staff estimates and calculations.

Note: Percent of population vaccinated shows total administered doses divided by two to reflect the two-dose regime of most vaccines—it does not necessarily reflect the actual number of fully vaccinated people. Aspired 2021 targets and completion dates of widespread vaccination are goals, forecasts, or estimates.
