Recent Developments

Global News

- Germany extended its current lockdown by another three weeks, until March 7. Hairdressers will be allowed to reopen earlier, and school openings will be decided on a regional basis.

Regional News

- Hong Kong will ease restrictions from February 18, by extending dining hours in restaurants, and reopening sports and entertainment facilities.
- Indonesia has extended restrictions from February 9 to February 22, by using a local-level focused approach. Movement limitations will depend on regional severity of infections.

Vaccine News

- The Oxford/AstraZeneca vaccine was approved by Korea's drug safety agency. AstraZeneca will start delivering the first doses from February 24.
- Japan will start vaccinations with the Pfizer/BioNTech vaccine next week, beginning with health workers.
- The World Health Organization has recommended the use of the Oxford/AstraZeneca vaccine worldwide by all adults, including the elderly. The panel also advises to extend the interval between doses to between 8 to 12 weeks to improve efficacy.
- WHO authorization is required for the COVAX vaccine program to begin distributing doses to participating countries. The Oxford/AstraZeneca vaccine represents a large share of vaccines procured by COVAX so far.

ASEAN+3 and Selected Economies: Confirmed COVID-19 Cases and Deaths

Economy	Total Cases ('000)	Cases per 1M Population	New Cases ¹	New Cases ¹ since 2020 ²	New Cases per 1M Pop. ¹	ΔNew Cases ¹	Δ% New Cases ¹	Total Deaths	New Deaths ¹	Fatality Rate (%)

United States	[Heatmap]			104,127 ↓	0.3	2.9
Australia	[Heatmap]			6 ↓	53.0	3.8
India	[Heatmap]			11,587 ↓	6.2	0.7

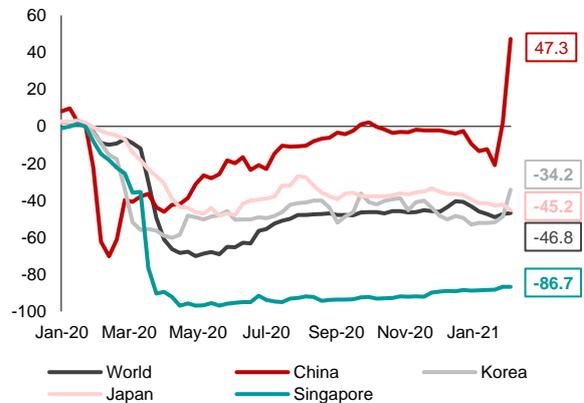

Sources: Haver Analytics, sourced from John Hopkins University; World Health Organization; and AMRO staff calculations.
 Note: The comparison is relative to each economy's own historical ratios, and does not take into account the quality of healthcare.
 The greener the heatmap, the greater the capacity of the economy's healthcare system compared to its past capacity; the redder, the weaker the capacity.

Selected ASEAN+3: Aggregate Non-Residentials Mobility
 (Percentage change from baseline; 7-day moving average)

Sources: Haver Analytics, sourced from Google COVID-19 Community Mobility reports; and AMRO staff calculations.
 Note: Baseline refers to the median value of the corresponding day in the period Jan 3 – Feb 6, 2020. "Non-residentials" refer to the aggregated mobility data for places such as groceries and pharmacies, retail and recreation facilities, transit station and workplaces.

World and Selected ASEAN+3: Weekly Scheduled Flights
 (Percent year-over-year)
