Recent Developments

Global News

- **Worldwide** confirmed cases surpassed 111.7 million yesterday, after at least 365,000 new infections were reported globally. Total deaths neared 2.5 million.
- Total deaths in the **United States** surpassed 498,000 yesterday, while daily new cases declined for the third-straight day. Total cases stood above 28 million.
- The **United Kingdom** is planning to partially reopen by the first week of March, starting with schools, and allowing the resumption of home care visits. Outdoor events and bigger gatherings could be allowed by late-May.

Regional News

- **Cambodia** will deport foreigners who violate quarantine rules and escape treatment, and they will be banned from re-entering. Companies that do not cooperate with contact tracing could also see their business shut down and licenses revoked.

Vaccine News

- Authorities in **Thailand** and **the Philippines** have granted emergency use authorization of **China's Sinovac vaccine yesterday**. Thailand will receive its first batch of doses this month. The Philippines, on the other hand, will not give the vaccine to its healthcare workers, due to its low efficacy when administered to this type of group, based on results from a Brazilian trial.
- **Korea** and **Malaysia** are both scheduled to begin their respective vaccination programs by the latter part of this week. Malaysia will start the first phase of its national immunisation program tomorrow, two days ahead of schedule, and first involving its frontline workers. Korea will begin its program on Friday, first with the AstraZeneca vaccine, followed by the Pfizer vaccine the next day.
- **Vietnam** is expected to begin its vaccination program by March, with frontline healthcare workers and the elderly first in line. Vaccination will commence immediately as soon as its first batch of AstraZeneca orders come in, due to arrive on February 28.
