Statistics

- **Worldwide** confirmed cases <u>surpassed 90 million</u>, with 1.9 million deaths. 2.2 million new cases were reported over the weekend, mainly contributed by the **United States**.
- <u>Nearly 70,000 new cases</u> were reported across the **ASEAN+3 region** since Friday.
- Confirmed cases in the **United Kingdom** have <u>surpassed 3 million</u>. <u>Daily new cases averaged 62</u> <u>thousand</u> on Saturday and Sunday.
- United States, Japan, Indonesia and Malaysia reported the <u>highest ever 7-day average of new</u> <u>cases</u> over the weekend.
- **China** reported 103 new cases yesterday, the <u>highest in 5 months</u>. Hebei province accounted for 80% of these new cases.

News

- Japan has <u>reported a new variant of COVID-19</u>. The new strain was detected in 4 travellers arriving from Brazil, and <u>differs from the variants reported in Britain and South Africa</u>.
- <u>Nationwide vaccination program in Indonesia is set to commence on 13 January</u>. The CoronaVac vaccine by Sinovac will be used at the initial stage. Indonesia plans to vaccinate 181.5 million people or 67% of its population.
- **Brisbane**, Australia's third largest city, <u>lifted the weekend's snap lockdown</u> after zero cases were detected among the more than 2 million people who were tested.
- **Malaysia** is expected <u>to introduce tighter measures to stem the surge</u> in new cases as death toll rose to 16 on Friday, the highest recorded since the start of the pandemic.
- An expert team from <u>World Health Organisation will visit</u> **China** on 14 January to investigate the <u>origins of the coronavirus</u>.

Source: Haver Analytics, sourced from Johns Hopkins University; AMRO staff calculations. Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections. 1/ Since January 31, 2020.

2/ Resolved cases (i.e. non-active cases) to total cases; serves as a proxy for the stage of the cycle.

Data as of 10/1/2021
