Global Coronavirus Cases		ASEAN+3 Coronavirus Cases		Plus-3 Coronavirus Cases		ASEAN Coronavirus Cases	
95,555,533 Total Cases		2,297,040 Total Cases		506,838 Total Cases		1,790,202 Total Cases	
47,656,692 Recovered Cases (49.9%)	2,040,085 Deaths (2.1%)	1,926,008 Recovered Cases (83.8%)	50,353 Deaths (2.2%)	403,316 Recovered Cases (79.6%)	10,447 Deaths (2.1%)	1,522,692 Recovered Cases (85.1%)	39,906 Deaths (2.2%)
45,858,756 Active Cases (48.0%)		320,679 Active Cases (14.0%)		93,075 Active Cases (18.4%)		227,604 Active Cases (12.7%)	

## Statistics

- **Worldwide** confirmed cases increased by more than half a million yesterday, the lowest increase in 3 weeks. There were more than 9,000 new deaths globally yesterday.
- **Spain** reported more than 84,000 cases yesterday, the highest the country has ever seen since the start of the pandemic. 2.3 million people have now been infected, with 53,769 deaths.
- 20,718 new cases were reported across the **ASEAN+3 region** yesterday. **Indonesia, Japan, Malaysia and Philippines** accounted for 94% of these cases.
- **Indonesia** reported the highest number of weekly cases yesterday, with an average of 11,471 cases in the last 7 days. 295 deaths were also reported yesterday, the third highest death toll the country has registered to-date.
- **Hong Kong** reported 107 new cases yesterday, the first three-digit increase since December 19<sup>th</sup>, 2020. Total confirmed cases stand at 9,664 with 163 deaths.

## News

- **Spain** has created a vaccination registry that will include those who were offered but refused to be vaccinated against COVID-19. The registry could potentially be shared within Europe.
- **Brazil** started its nationwide vaccination program yesterday. The vaccination roll-out is complicated by a strained healthcare system and two new virus variants, with at least one that has been found to be more contagious.
- **Japan** has warned of a potential community spread of the UK COVID-19 variant. 3 people with no travel history to the UK have been infected.
- **Korea** is set to start inoculation its residents by late February once the first batch of vaccine from COVAX arrives. Herd immunity is expected to be achieved by September, 2 months earlier than previous projection.
- **Philippines** has allowed Sinovac to hold vaccine trials in the country. Separately, the Philippine Food and Drug Administration is waiting for Sinovac to submit documents on late-stage trials before processing its separate application for emergency use.

## Overview of Confirmed COVID-19 Cases

Data as of 18/1/2021

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Resolved cases (i.e. non-active cases) to total cases; serves as a proxy for the stage of the cycle.
