Statistics

- **Worldwide** confirmed cases rose by 2 million over the weekend to surpass 95 million, with 2 million deaths.
- 79,369 new cases were reported across the **ASEAN+3 region** since Friday.
- **Malaysia** reported more than 4,000 cases on Saturday, the highest the country has ever seen since the start of the pandemic. Average weekly cases remained at an all-time high of 3,206 cases.
- **Indonesia** reported the sixth consecutive day of more than 10,000 confirmed cases yesterday. Total confirmed cases have surpassed 900,000, with total deaths of 25,987.
- **China** saw cases increasing by more than 100 a day, for the sixth consecutive day. A daily average of 114 cases were reported last week, the highest weekly average since April 2020.

News

- **Norway** raised concern over the safety of Pfizer vaccine on elderly people with serious underlying health conditions after 29 died following vaccination.
- **United Kingdom** plans to accelerate its vaccination program this week, targeting those aged 70 and over, and the “clinically extremely vulnerable”. 3.9 million people have received their first dose to-date and vaccines will be available for all UK adults by September.
- **Hong Kong** is expanding mandatory testing to all restaurants and retail workers at Yau Tsim Mong district, the site of a recent major outbreak.
- **Singapore** will require all inbound travellers to take a COVID-19 test upon arrival beginning January 25th following a resurgence of cases globally. Currently, only non-residents with travel history to high-risk countries or regions are required to take a PCR test 72 hours before departure.
- **Malaysia** announced a RM15 billion COVID-19 aid package today to support the economy amid a resurgence of cases. The stimulus support comes a week after a state of emergency was declared.

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Resolved cases (i.e. non-active cases) to total cases; serves as a proxy for the stage of the cycle.
