32,550,442 Active Cases (39.7%)		227,509 Active Cases (12.1%)		5( Acti	6,211 ive Cases 14.7%)	171,298 Active Cases (11.4%)		

#### **Statistics**

- Worldwide confirmed cases <u>reached almost 82 million</u> with close to 1.8 million confirmed deaths.
- <u>16,343 new cases</u> were reported across the **ASEAN+3 region** yesterday, the <u>second highest tally</u> ever recorded.
- **Korea** reported <u>1,048 new cases</u>, exceeding 1,000 for the second straight day.
- **China** reported <u>15 cases of local transmission</u> in the north-eastern province of Liaoning and the capital city of Beijing.
- **Thailand** reported its <u>first coronavirus death in almost eight weeks</u>. Its total death toll stands at 61.

#### News

- **Chinese** company Sinopharm has announced <u>interim data for one of the two vaccines it is developing. The vaccine is 79.3% effective</u> as well as safe.
- **Singapore** has <u>started vaccinations</u> with the Pfizer/BioNTech vaccine today—as the first regional economy which has approved the vaccine. Vaccinations have started with health care workers, while the elderly will receive shots from February onwards.
- U.S. company Novavax has launched a 30,000-person Phase 3 trial in the **United States**, in addition to an ongoing, but smaller, Phase 3 trial in the United Kingdom.
- Following a period of no local transmission in **Australia**, a <u>second cluster in Sydney has emerged</u>, <u>prompting tighter restrictions</u> ahead of New Year's Eve celebrations.
- Amid the spreading of the new virus strain, <u>more regions in the **United Kingdom** will be placed under stay-at-home orders</u> (Tier 4 in the UK's tier system) from today onwards.
- The new virus strain has now also been found in cases in **India** and the **United States**.

Source: Haver Analytics, sourced from Johns Hopkins University; AMRO staff calculations.

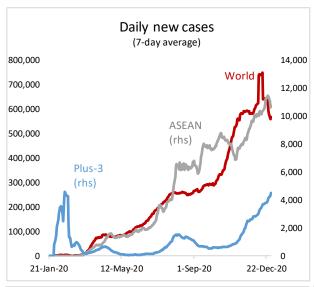

Notes: New cases since previous day. \( \Delta \) fefers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

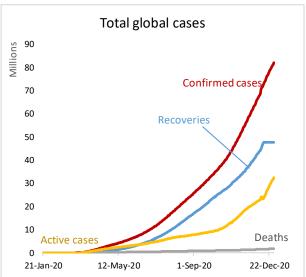

1/ Since January 31, 2020.

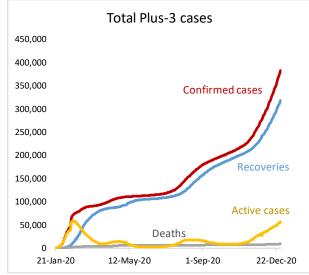

2/ Resolved cases (i.e. non-active cases) to total cases; serves as a proxy for the stage of the cycle.
