## Statistics

- **Worldwide** confirmed cases stood at 68.9 million yesterday, after almost 670,000 new infections were reported globally. More than 12,500 new deaths were also recorded.
- Hospitalizations in the United States rose to a record high of 106,000 yesterday, up by at least 15 percent over the previous two weeks. New deaths also reached more than 3,100 yesterday, pushing total fatalities above 288,000.
- In the **ASEAN+3 region**, around 13,500 new infections were recorded yesterday.
- **China** saw 12 new infections yesterday, one of which was reportedly via local transmission, found in its northern part. The rest were imported cases.
- **Japan** reached a new record for daily new infections yesterday, after at least 2,800 new cases were reported. At least six of its 47 prefectures saw new daily highs yesterday, pushing total confirmed cases above 169,000.
- Daily new cases in Korea stood around 670 yesterday, slightly lower than the previous day's figure. Of the new cases, 36 were imported. Total confirmed cases surpassed 40,000 yesterday, with 564 deaths.
- **Indonesia** reported its highest single-day death count yesterday, with 171 new deaths. Daily new cases also returned above 6,000 yesterday. Total confirmed cases stood at 592,900, with total deaths around 18,100.
- Total confirmed cases in Myanmar surpassed 103,000 yesterday, after around 1,430 new infections were reported. It also saw 23 additional deaths, bringing total fatalities near 2,180.

## News

- The **United Kingdom's** medicine regulator warned that anyone with a history of anaphylaxis to medicine or food should not receive the Pfizer-BioNTech vaccine. Since it began its mass vaccination last Tuesday, there had been two reports of anaphylaxis. Pfizer had initially said that people with a history of severe adverse allergic reaction to vaccines or vaccine components were excluded from its late-stage trials.
- **Canada** became the third economy to approve for use the vaccine from Pfizer-BioNTech, following the earlier move of the **United Kingdom** and **Bahrain**. In response to the incident in the United Kingdom, Canada's health ministry noted that while adverse events were to be expected, these would not necessarily change the benefit of the vaccine shot.
- The health ministry of the **United Arab Emirates** said yesterday that an experimental vaccine developed by China's Sinopharm showed an efficacy rate of 86 percent, based on an interim analysis of its late-stage trials. Detailed results on the effect on participants are yet to be released.
- **Japan** is considering to buy 10,500 deep freezers to store its COVID-19 vaccines, as well as purchasing dry ice in bulk to prepare for vaccination, according to its Ministry of Health. It has agreements to buy 290 million doses from **Moderna**, **AstraZeneca** and **Pfizer**. Pfizer's vaccine requires around minus 75 degrees Celsius for storage, while Moderna's require about minus 20 degrees Celsius.

Overview of Confirmed COVID-19 Cases

Data as of 9/12/2020

Economy	Total Cases	Cases per 1M Population	New Cases	New Cases per 1M Pop.	New Cases (7-day avg) <sup>1</sup>	ΔNew Cases	Δ% New Cases	Total Deaths	New Deaths	Fatality Rate (%)	Total Recovered	Recovery Rate (%)	Active Cases	Resolved cases (%) <sup>2</sup>

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Resolved cases (i.e. non-active cases) to total cases; serves as a proxy for the stage of the cycle.
