Statistics

- Worldwide confirmed cases surpassed 51 million yesterday, after at least 540,000 new cases were reported globally. The **United States** accounted for 10.2 million of total confirmed cases, followed by **India** and **Brazil** with 8.6 million and 5.7 million infections, respectively.
- The **United States** yesterday saw its seventh-straight day of more than 100,000 daily new infections. Hospitalizations also reached an all-time high of around 60,000 yesterday.
- Myanmar** saw more than 1,250 new infections yesterday, pushing its total confirmed cases to above 63,000. Total fatalities neared 1,500 after 24 more deaths were recorded.
- New infections in **Malaysia** eased to 869 yesterday, taking its total confirmed tally to above 42,000. Sabah continued to be the worst-hit state, and it accounted for nearly half of yesterday's new cases. Total deaths reached 300, after 6 additional fatalities.

News

- Following **Brazil's** suspension of **China's** Sinovac vaccine trials last Monday, **Indonesia's** state-owned pharmaceutical company Bio Farma reported yesterday that its own clinical trials of the same vaccine were "going smoothly." As such, there are no plans to suspend the trials, which involves more than 1,500 people in West Java.
- Singapore** and **Hong Kong** will begin their "air travel bubble" starting November 22, with the arrangement replacing the quarantine rules with testing requirements. The initial implementation will see only several flights a week, operated by Singapore Airlines and Cathay Pacific, and these will then increase to daily flights beginning December 7. Only 200 passengers will be allowed in each flight.
- To minimize the risk of imported infections, **Singapore** will be requiring all inbound travellers—who are not Singaporeans or permanent residents—from "higher-risk" economies to take a PCR test within 72 hours before their departure. Visitors from lower-risk areas are exempted from this pre-departure test rule, including from **Brunei Darussalam, New Zealand, Vietnam, Australia, China, and Malaysia** (except Sabah), among others.
- Restaurants, bars, and other entertainment venues in Russia's capital Moscow will be ordered to close between 11 in the evening to 6 in the morning of the following day, starting this Friday, November 13, until January 15, 2021. Schools, including colleges and universities, will also return to online learning during the same period.
- The **United States'** Food and Drug Administration has granted emergency approval to pharmaceutical company Eli Lilly's antibody treatment against COVID-19. The treatment, which is still undergoing trials, was shown to reduce the risk of hospitalization and emergency room visits for those with mild-to-moderate symptoms of the virus.

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

¹/ Since January 31, 2020.

²/ Resolved cases (i.e. non-active cases) to total cases; serves as a proxy for the stage of the cycle.
