### Statistics

- Indonesia reports <u>3,267 new cases</u>, lower than previous days, though Monday's data is usually lower than other days.
- **Myanmar** confirms <u>1,340 new cases and 18 new deaths</u>, for a total of more than 29,000 confirmed cases in total.
- India reports around <u>55,000 new infections, the lowest daily tally in almost two months</u>. The death toll increased by 706 to almost 110,000 in total.
- The **United States** confirmed <u>more than 40,000 new cases</u>, <u>marking one week with daily new</u> <u>cases above 40,000</u>, including several days above 50,000.
- **Russia** continues to report <u>more than 10,000 new daily cases for nine straight days, including</u> <u>a record of more than 13,000 new cases</u> in each of the last two days, exceeding the previous records in May.

### News

- In **Malaysia**, Kuala Lumpur, Putrajaya, and the state of Selangor will be <u>put under a</u> <u>Conditional Movement Control Order (CMCO) from tomorrow</u>. Restrictions will remain in place for at least two weeks and include a ban on inter-district travel, closure of schools, public parks, recreational facilities, places of worship, bars and nightclubs.
- Indonesia and Singapore have agreed to a <u>reciprocal green lane for essential business and</u> <u>official travel</u>. Applications will open by October 26, and travellers will have to meet certain requirements, including Covid-19 tests.
- **Singapore** will <u>revise its border restrictions</u>, adding **Hong Kong** to the list of places with low risk and allowing a shorter stay-home notice of 7 days. Travelers from the **Malaysian** state of Sabah, on the other hand, will be removed from the list and will have to undergo a 14-day quarantine at a designated facility.
- Johnson & Johnson has paused all clinical trials of its experimental Covid-19 vaccine, including a Phase 3 trial that began in September, due to an unexplained illness in one participant. A panel of independent safety experts is reviewing the case.
- In the **United States**, a <u>first confirmed cases of reinfection with Covid-19</u> has been reported. The man become more seriously ill following the second infection.
