

COVID Monitor

Monday, October 05, 2020

Statistics

- **Worldwide** confirmed cases <u>surpassed 35 million yesterday</u>, taking four days to increase from 34 million. Global deaths stood at 1.04 million.
- Across the **ASEAN+3 region**, around 9,200 new cases were reported yesterday. The region's total confirmed cases have surpassed 910,000.
- Total confirmed cases in **Myanmar** <u>climbed above 17,500 yesterday</u>, after at least 1,000 new cases were reported. The death toll also increased to 412.
- Indonesia's confirmed case count <u>surpassed 303,000 yesterday</u>. It saw around 3,900_new cases, after nearly a week of reporting more than 4,000 infections daily. Total deaths stood at more than 11,000.
- Malaysia reported <u>317 new infections, a new high, last Saturday, before these eased to 293</u> <u>yesterday.</u> Most of the new cases in recent days continue to be via local transmission, and are linked to Sabah. Total cases stood near 12,400.
- **Russia** reported <u>more than 10,000 new cases yesterday</u>, the highest daily figure since the middle of May. At least a third of the new cases were linked to capital Moscow. Total confirmed cases stood at 1.21 million, with at least 21,000 deaths.
- India's total confirmed cases surpassed the 6.5 million-mark during the weekend, as daily new cases remain above 75,000. Its death toll also climbed above 100,000 last Saturday.

News

- New Zealand today announced that <u>Auckland, from where its latest and biggest cluster of</u> <u>infections came from, will be moving back to Alert level 1</u> beginning October 8, similar to the rest of the country. At this level, there are no longer limits on gatherings, and masks will no longer be required when using public transport.
- Japan and Korea could agree as early as <u>this week to reopen short-term and long-term</u> <u>business travel to each other</u>, according to media reports. The bilateral arrangement is expected to take effect this month. Details reportedly include allowing visitors to skip the mandatory two-week quarantine upon arrival if they provide negative test results, along with the trip itinerary.
- Scientists behind the AstraZeneca-Oxford University vaccine <u>are hoping for regulators to</u> <u>approve the vaccine by Christmas</u>, according to **UK** media reports. Data on the vaccine is now under regulatory review, a move that aims to speed up the approval process. A full vaccine rollout programme could take six months, or less, after approval.
