## Statistics

- Worldwide confirmed cases stood at 32.9 million yesterday, while total deaths continued to approach 1 million.
- Confirmed cases in the **United States** topped 7 million during the weekend, with California, Texas, and Florida leading the increase in new infections. Total cases stood at 7.1 million as of yesterday.
- Across the **ASEAN+3 region**, <u>at least 8,300 new infections were reported</u>. Yesterday marked its fifth straight day of more than 8,000 new cases.
- <u>Total confirmed infections has surpassed 10,000</u> in **Myanmar**. More than 700 new cases were reported yesterday, with 28 additional fatalities. The death toll stood at 226.
- Korea saw <u>50 additional infections yesterday, the smallest increase since last month</u>, pushing total infections to nearly 23,700. Of the new infections, 10 were imported.
- Total fatalities in **Indonesia** <u>surpassed 10,300 during the weekend</u>, the highest in the region. Its total confirmed cases also breached 270,000.
- **Russia** saw <u>at least 7,700 new cases yesterday</u>, <u>pushing its total case tally to 1.1 million</u>. Yesterday's daily increase was the highest since late-June.
- India's total confirmed cases exceeded 6 million yesterday, after at least 82,000 new infections were recorded. Fatalities surpassed 95,000 after at least 1,000 more died.

### News

- **China**'s <u>annual production capacity for COVID-19 vaccines is expected to reach 610 million</u> <u>doses by the end of this year</u>, according to its National Health Commission. By next year, production is forecast to reach 1 billion doses annually.
- Interim results for **US** multinational Johnson & Johnson showed that <u>its experimental single-dose COVID-19 vaccine produced a strong immune response</u> during its early-to-mid stage trials. However, more data is required to analyse its effects on elderly people.
- In the **United States**, Florida <u>lifted all its restrictions on businesses state-wide</u> last Friday, moving it into "phase three" of reopening. The governor issued an executive order allowing all its restaurants and bars to operate at 100 percent-capacity. Fines imposed on those who do not wear masks and observe social distancing have also been removed.

Source: Haver Analytics, sourced from John Hopkins University; AMRO staff calculations. Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections. 1/ Since January 31, 2020. 2/ Resolved cases (i.e. non-active cases) to total cases; serves as a proxy for the stage of the cycle.
