## Statistics

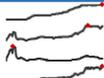

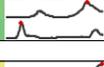

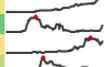

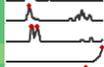

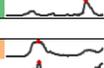

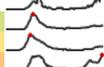

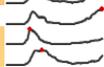

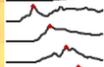

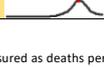

- A record of close to 320,000 cases worldwide was reported on Friday, though less cases over the weekend. Total confirmed cases surpassed 28.9 million.
- Almost 10,000 new cases were reported across the **ASEAN+3 region** on Saturday, one of its highest tallies yet. 7,887 new cases were reported yesterday.
- **Indonesia** reported its four highest daily increases to date over the last four days. More than 3,600 new cases were reported yesterday, for a total of more than 218,000 confirmed cases.
- 219 new cases were reported in **Myanmar** yesterday, following a record 374 new cases on Saturday and 272 new cases on Friday. In total, more than 3,000 cases have been confirmed with 24 deaths, including ten new deaths over the weekend.
- **Malaysia** reported 182 new cases on Friday, the highest since early June. Considerably lower 58 and 47 new cases were reported on Saturday and Sunday, respectively.
- **India** reported another daily global record of 97,570 new cases on Friday and slightly lower daily tallies over the weekend, marking five straight days of more than 90,000 new cases.
- 

## News

- As of Friday, **Japan** and Singapore will start a reciprocal “green lane” arrangement for business and official travel amid certain conditions, including pre-departure and post-arrival testing and adherence to a pre-determined itinerary.
- Amid Jakarta’s re-imposition of large-scale social restrictions (PSBB) from today, the **Indonesian** capital will isolate residents who test positive for the coronavirus in official facilities instead of quarantining at home to reduce contagion.
- **Korea** will ease social distancing measures in Seoul for the next two weeks. A ban on dining-in after 9pm has been lifted, and certain leisure facilities can reopen. Gatherings will be limited to 50 people indoors and 100 people outdoors.
- Following the review of safety data by an independent committee, the phase 3 trial of AstraZeneca and Oxford University’s Covid-19 vaccine in the United Kingdom has resumed after the study was paused last week over health concerns.

## Overview of Confirmed COVID-19 Cases

Data as of 13/9/2020

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

<sup>1/</sup> Since January 31, 2020.

<sup>2/</sup> Recovery rate is a proxy for the stage of the cycle.
