## Statistics

- With over 280,000 new cases reported globally yesterday, **worldwide confirmed cases** breached 26 million. Total deaths increased to at least 863,000.
- Total confirmed cases in **Russia** surpassed the 1-million mark yesterday, joining the United States, India, and Brazil as economies with at least a million infections.
- The **ASEAN+3 region** saw around 6,000 new cases yesterday, easing from the previous day.
- **Korea** reported 195 additional cases yesterday, down from the previous day's figure. This marked the first time since August 16 that the daily new infections fell below 200.
- New cases in **Indonesia** returned to above 3,000 yesterday, bringing its total confirmed tally to at least 180,000. More than 100 new deaths were also recorded.
- **The Philippines** saw around 2,180 new infections yesterday, the lowest daily increase in five weeks, with 26 additional fatalities. Total confirmed cases surpassed 226,000.
- **Turkey** saw nearly 1,600 new cases yesterday, rising to daily levels seen last June. The health minister acknowledged that it is in the "second peak" of its current outbreak. Capital Ankara is seeing the most rapid rise in new infections.

## News

- **Hong Kong** will relax some of its social distancing requirements beginning tomorrow, as daily new infections continue to decline. Businesses such as gyms and amusement centres can reopen tomorrow, while dining in restaurants will be extended by one hour, up to 10 in the evening.
- **Korea** and **Singapore** have reached a fast-lane agreement that will allow cross-border travel for essential and official purposes by tomorrow, September 4. Eligible travellers are required to undergo pre-departure and post-arrival tests, as well as follow controlled itineraries for the first two weeks upon arrival.
- The Civil Aviation Administration of **China** said yesterday that it will allow the resumption of direct flights to Beijing from eight economies including Thailand, Cambodia, Greece, Denmark, Sweden and Canada, from today. Restrictions would nonetheless be re-imposed if more than three passengers test positive for COVID-19 upon arrival.
- The **United States** Centers for Disease Control and Prevention (CDC) has asked public health officials in all states to prepare for the local distribution of a potential COVID-19 vaccine as soon as November 1. As the vaccine will be in limited quantities, CDC will prioritize high-risk groups, including medical workers, national security personnel, and nursing home residents and staff.
