## Statistics

- **Worldwide** confirmed cases reached 20.6 million yesterday, with around 335,000 new cases. Fatalities stood at almost 750,000.
- The **ASEAN+3 region** saw more than 7,000 new cases yesterday, higher than the previous day's tally. The Philippines contributed more than 55 percent of the region's new cases.
- **Japan** reported over 950 new infections yesterday, up from the previous day, and bringing its total cases to above 51,000. Of the new cases, 222 originated from Tokyo, and more than half reportedly has unknown transmission routes.
- **The Philippines** recorded more than 4,000 new infections yesterday, with more than half from Metro Manila. Total cases stood above 143,000, with around 2,400 deaths.
- Confirmed cases in **Indonesia** surpassed the 130-thousand mark yesterday, after almost 2,000 new infections were reported. The country also saw 79 additional deaths.
- **Vietnam** reported 17 new cases yesterday, bringing its total confirmed tally to 883. One new infection, from capital Hanoi, had no clear link to the recently-hit Danang city.

## News

- **China's** health authority yesterday reported the case of a 68-year old woman from Hubei, who again tested positive for the virus last week, more than 5 months after recovering from her first COVID-19 infection back in February.
- **Russia** yesterday indicated that the first batch of its newly approved vaccine, Sputnik V, will be released within the next two weeks, for delivery to hospitals. Russia is planning to produce around 5 million doses every month by December 2020 to January 2021.
- Scientists from **the Philippines** yesterday met with Moscow-based Gamaleya Institute, which developed Sputnik V, to discuss its participation in Phase 3 clinical trials. A confidentiality agreement between the two parties is expected for Phase 3 to commence in the Philippines.
- **Kazakhstan's** presidential service yesterday announced that a delegation will be sent to Russia in the second half of August to discuss the country's purchase of the vaccine.
- **Switzerland** will allow events that will gather 1,000 people and more, beginning October 1 of this year. The government has banned such events since late-February. This easing of limits for audiences will still require permission from local authorities.

Overview of Confirmed COVID-19 Cases

Data as of 12/8/2020

Source: Haver Analytics, sourced from John Hopkins University; AMRO staff calculations.

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Recovery rate is a proxy for the stage of the cycle.
