Global Coronavirus Cases	ASEAN+3 Coronavirus Cases	Plus-3 Coronavirus Cases	ASEAN Coronavirus Cases
20,089,624 Total Cases	486,215 Total Cases	153,137 Total Cases	333,078 Total Cases
12,280,520 Recovered Cases (61.1%)	342,434 Recovered Cases (70.4%)	129,380 Recovered Cases (84.5%)	213,054 Recovered Cases (64.0%)
736,191 Deaths (3.7%)	14,339 Deaths (2.9%)	6,046 Deaths (3.9%)	8,293 Deaths (2.5%)
7,072,913 Active Cases (35.2%)	129,442 Active Cases (26.6%)	17,711 Active Cases (11.6%)	111,731 Active Cases (33.5%)

Statistics

- **Worldwide** confirmed cases topped 20 million yesterday, with at least 736,000 fatalities. The **United States, Brazil, and India** collectively accounted for more than half of global infections.
- Confirmed cases in **the United States** reached 5.1 million yesterday, the highest for any economy. This represents a quarter of the world's total confirmed cases.
- The **ASEAN+3 region** saw more than 9,500 new cases yesterday, bringing the region's total confirmed cases to at least 485,000. **The Philippines** drove the increase in new cases.
- Total cases in **Japan** stood closer to the 50-thousand mark yesterday, including those reported from the Diamond Princess ship, after more than 800 new cases were recorded.
- **The Philippines** recorded nearly 6,800 new infections yesterday, its highest single-day count so far. This brings its total to more than 136,600 infections, with at least 2,200 deaths.
- **Indonesia** continued to have the highest death toll in the ASEAN+3 region, after 42 more people died of the disease yesterday. Its total number of infections stood around 127,000 yesterday, with more than 5,700 deaths.
- **India** saw around 53,000 new cases yesterday, breaking its four-day streak of recording more than 60,000 new infections. The country remains the third-most affected, with over 2.2 million cases and nearly 45,000 deaths.

News

- Health authorities in **Korea** yesterday reported their findings of three new mutated COVID-19 strains, originating from three of the economy's imported cases. The imported cases were reportedly from Pakistan and Uzbekistan. Further experiments are being conducted to study the new mutations.
- The **Australian** prime minister has indicated yesterday that internal border closures are unlikely to be relaxed or lifted before Christmas this year. This came after the economy yesterday registered its highest single-day increase in deaths so far.

Overview of Confirmed COVID-19 Cases

Data as of 10/8/2020

Source: Haver Analytics, sourced from John Hopkins University; AMRO staff calculations.

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Recovery rate is a proxy for the stage of the cycle.
