Statistics

- **Worldwide** confirmed cases stood at 13.3 million yesterday, with around 578,000 confirmed deaths. The United States and Brazil continue to drive the increase in new cases.
- In the **ASEAN+3**, more than 2,900 new cases have been recorded yesterday, slightly higher than the previous day's number.
- **Hong Kong** reported 48 new cases yesterday, bringing the country's total cases to 1,569. While 40 of the new cases were via local transmission, more than half have not been linked to known clusters.
- New cases in **Japan** surpassed 300 yesterday, with 143 infections coming from Tokyo. This marks the sixth-straight day that Tokyo has reported more than 100 cases daily, with the latest cluster being linked to a theatre in Shinjuku.
- **Indonesia** recorded 1,591 new infections yesterday, higher than the previous day's tally. This brings its total COVID-19 cases to more than 78,500, making it the second most affected economy in the region after China.
- **India's** confirmed infections took only four days to increase from 800,000 to the 936,181 case count as of yesterday. New cases reached a record-high of 29,429 yesterday, along with 582 fatalities.

News

- **US** company 3M announced a partnership with the Massachusetts Institute of Technology (MIT) to develop a rapid test for COVID-19. The 3M-MIT project aims to produce an affordable paper-based device that can be administered in the point-of-care, and will produce results in a few minutes.
- In **Hong Kong**, authorities have asked all schools, both public and private, to suspend classes and other extracurricular activities beginning today until July 28. This also follows the temporary closure of some establishments—such as theme parks—from today.
- **Malaysia** and **Singapore** have agreed to implement a reciprocal “green lane” beginning August 10. Cross-border travel for essential business and official purposes will be allowed. Safety protocols and application details will be made available ten days prior to implementation.
- Following the recent rise in cases, **the Philippines** will reportedly implement house-to-house searches for COVID-19 patients in self-quarantine. The plan, which will involve the police, will bring patients into isolation facilities in order to minimize local transmission.
