## Statistics

- **Worldwide** confirmed cases surpassed 17 million as more than 300,000 new cases in a day were reported for the first time. More than 667,000 deaths have been confirmed so far.
- 6,062 new cases were reported across the **ASEAN+3 region** yesterday, the first time the regional daily tally has crossed 6,000 cases since mid-February.
- A record 1,266 new cases were reported for **Japan**, with a total of more than 33,300 confirmed cases.
- The **Philippines** recorded 1,813 new cases, for a total of more than 85,000 confirmed cases. It has surpassed China as the second highest total confirmed case tally in the region.
- **Indonesia** reported 2,381 new cases, the second time the daily case incidence has surpassed 2,000. Total confirmed infections stand at 104,432 with 4,975 confirmed deaths.
- Outside the ASEAN+3 region, **Australia** confirmed more than 700 new cases, its highest daily increase to date.
- **India** continues to report high increases in case numbers, with a record of more than 50,000 new cases confirmed for a second day in a row.
- **Brazil** reported a record number of more than 69,000 new cases after several days with relatively lower case numbers due to data transfer issues between local government and its national system. Brazil has more than 2.5 million confirmed cases in total.
- New cases in the **United States** seem to have peaked for now, with more than 70,000 cases reported yesterday. More than 150,000 deaths have been confirmed in the United States.

## News

- **Russia** will likely approve the first coronavirus vaccine within the next two weeks, developed by the Moscow-based Gamaleya Institute. No scientific data has been released and concerns remain about its safety and effectiveness. The vaccine is expected to complete the second phase of trials by August 3, and the important third phase of testing will be conducted in parallel with the vaccination of frontline medical workers.
- **Thailand** will extend its state for emergency for another month until August 31. Thailand has not reported any local transmission in more than two months. The decree was adopted on March 26 and has been extended three times previously.

*Due to a public holiday on Friday, the Covid Monitor will resume on Monday, August 3.*

## Overview of Confirmed COVID-19 Cases

Data as of 29/7/2020

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

<sup>1/</sup> Since January 31, 2020.

<sup>2/</sup> Recovery rate is a proxy for the stage of the cycle.
