Statistics

- **Worldwide** confirmed cases surpassed the 11-million mark last Friday, with more than 525,000 confirmed deaths.
- **Indonesia** reported 1,607 new cases yesterday, for a total of more than 63,500 confirmed cases. 82 new deaths were also reported, the highest daily increase so far, bringing total deaths to 3,171.
- The **Philippines** recorded its largest single-day spike yesterday, with 2,424 confirmed infections, bringing total cases to 44,254.
- **Japan** confirmed 207 new cases yesterday, with Tokyo accounting for 111 new infections. This is the fourth straight day of new cases exceeding 100 in the capital, with infections reportedly spreading among younger people.
- The **United States** recorded more than 40,000 new cases yesterday, with Florida accounting for around 10,000 of new infections. The surge in cases has muted Independence Day celebrations across the country on July 4.

News

- **Indonesia** will reportedly start working on its own COVID-19 vaccine by next year. Concerns over global vaccine supply grew after the United States earlier secured most of the supply of the drug Remdesivir, known to hasten the recovery from COVID-19.
- **Chinese** pharmaceutical company Sinopharm completed the construction of its second plant in Wuhan last weekend, which will mass-produce a potential COVID-19 vaccine. The new plant is anticipated to produce 100 million doses annually, effectively doubling Sinopharm's current capacity.
- Some sports activities have resumed across the region, but with "closed doors." Boxing matches in **Thailand** resumed on Saturday after more than three months of suspension, while **Japan's** J-League first division also returned to football matches during the weekend.

Overview of Confirmed COVID-19 Cases

Data as of 5/7/2020

Source: Haver Analytics, sourced from John Hopkins University; AMRO staff calculations.

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Recovery rate is a proxy for the stage of the cycle.
