

Figure 1. ASEAN+3 and Selected Economies: Covid Cycle Heat-map

Sources: Haver Analytics, sourced from John Hopkins University; and AMRO staff calculations.

Note: Based on [Hinojales, Marthe, Anne Oeking, and Li Lian Ong. 2020a. "Where are We in the Covid Cycle?" AMRO Analytical Note, Singapore, April 27.](#) The individual trajectories through the various stages of the Cycle are detailed in Figure 9.

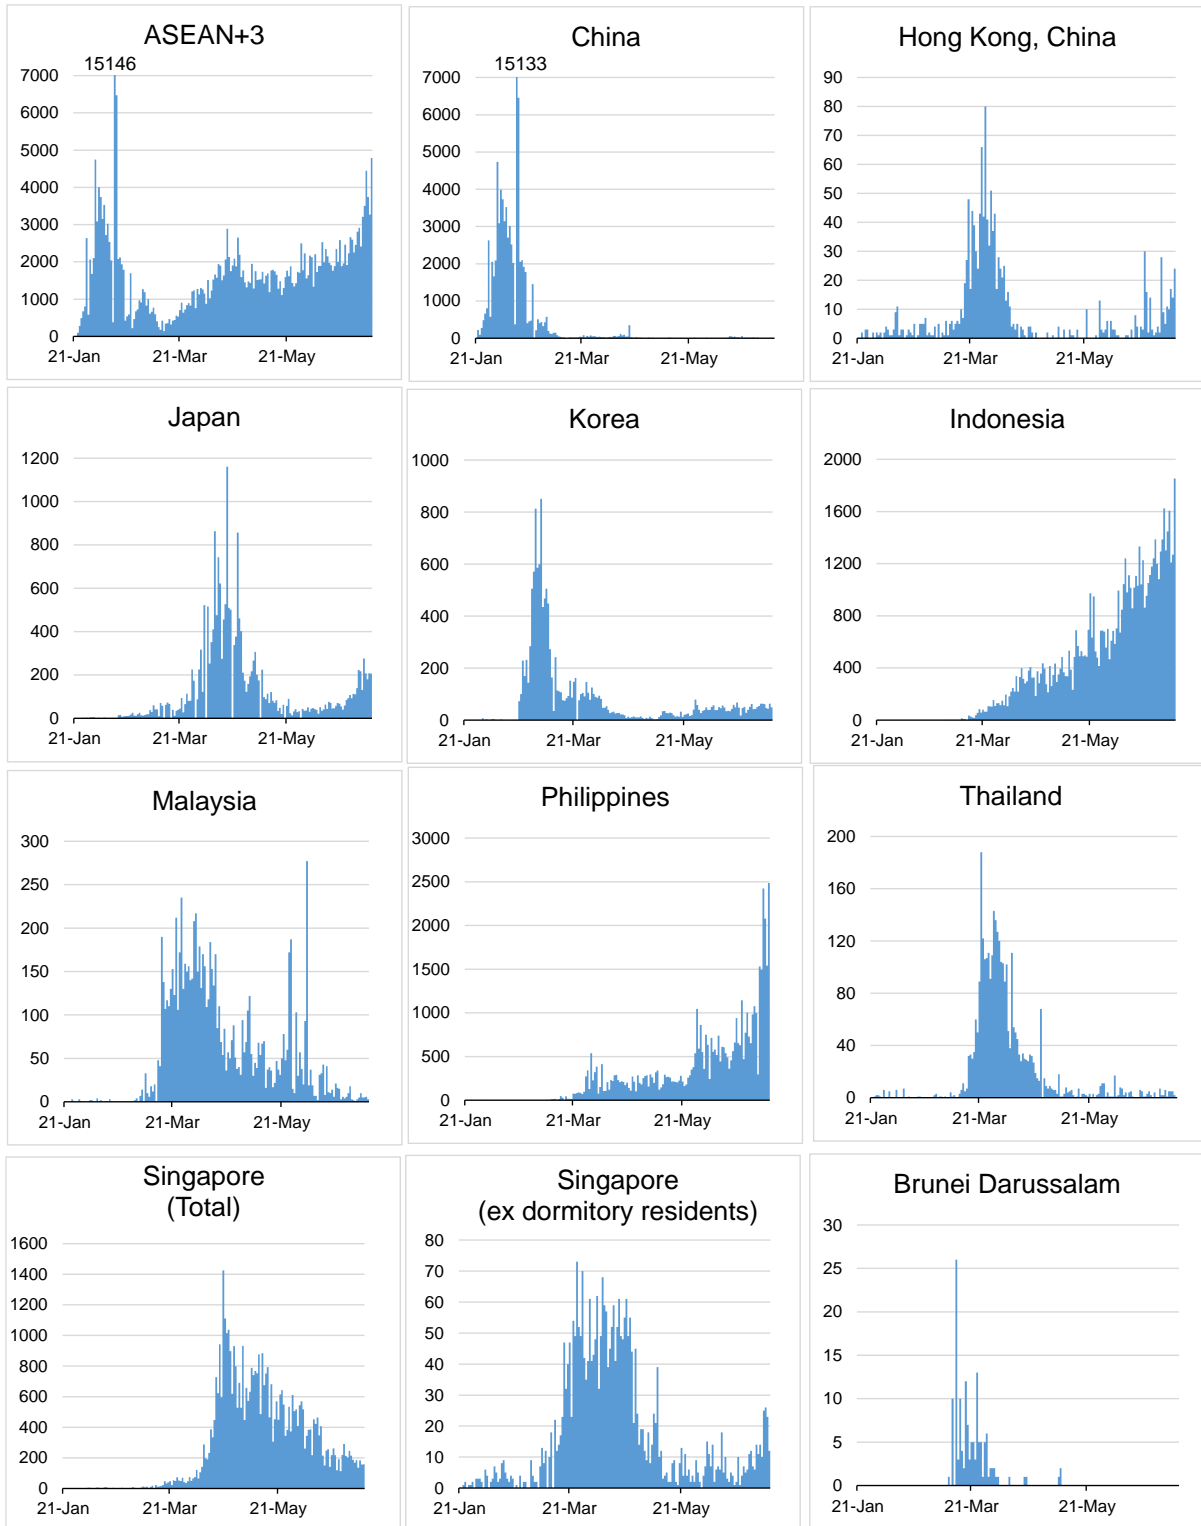

**Figure 2. ASEAN+3 and Selected Economies: Capacity of the Healthcare System during COVID-19**  
(Measured by the number of hospital beds to active cases)

Sources: Haver Analytics, sourced from John Hopkins University; World Health Organization; and AMRO staff calculations.

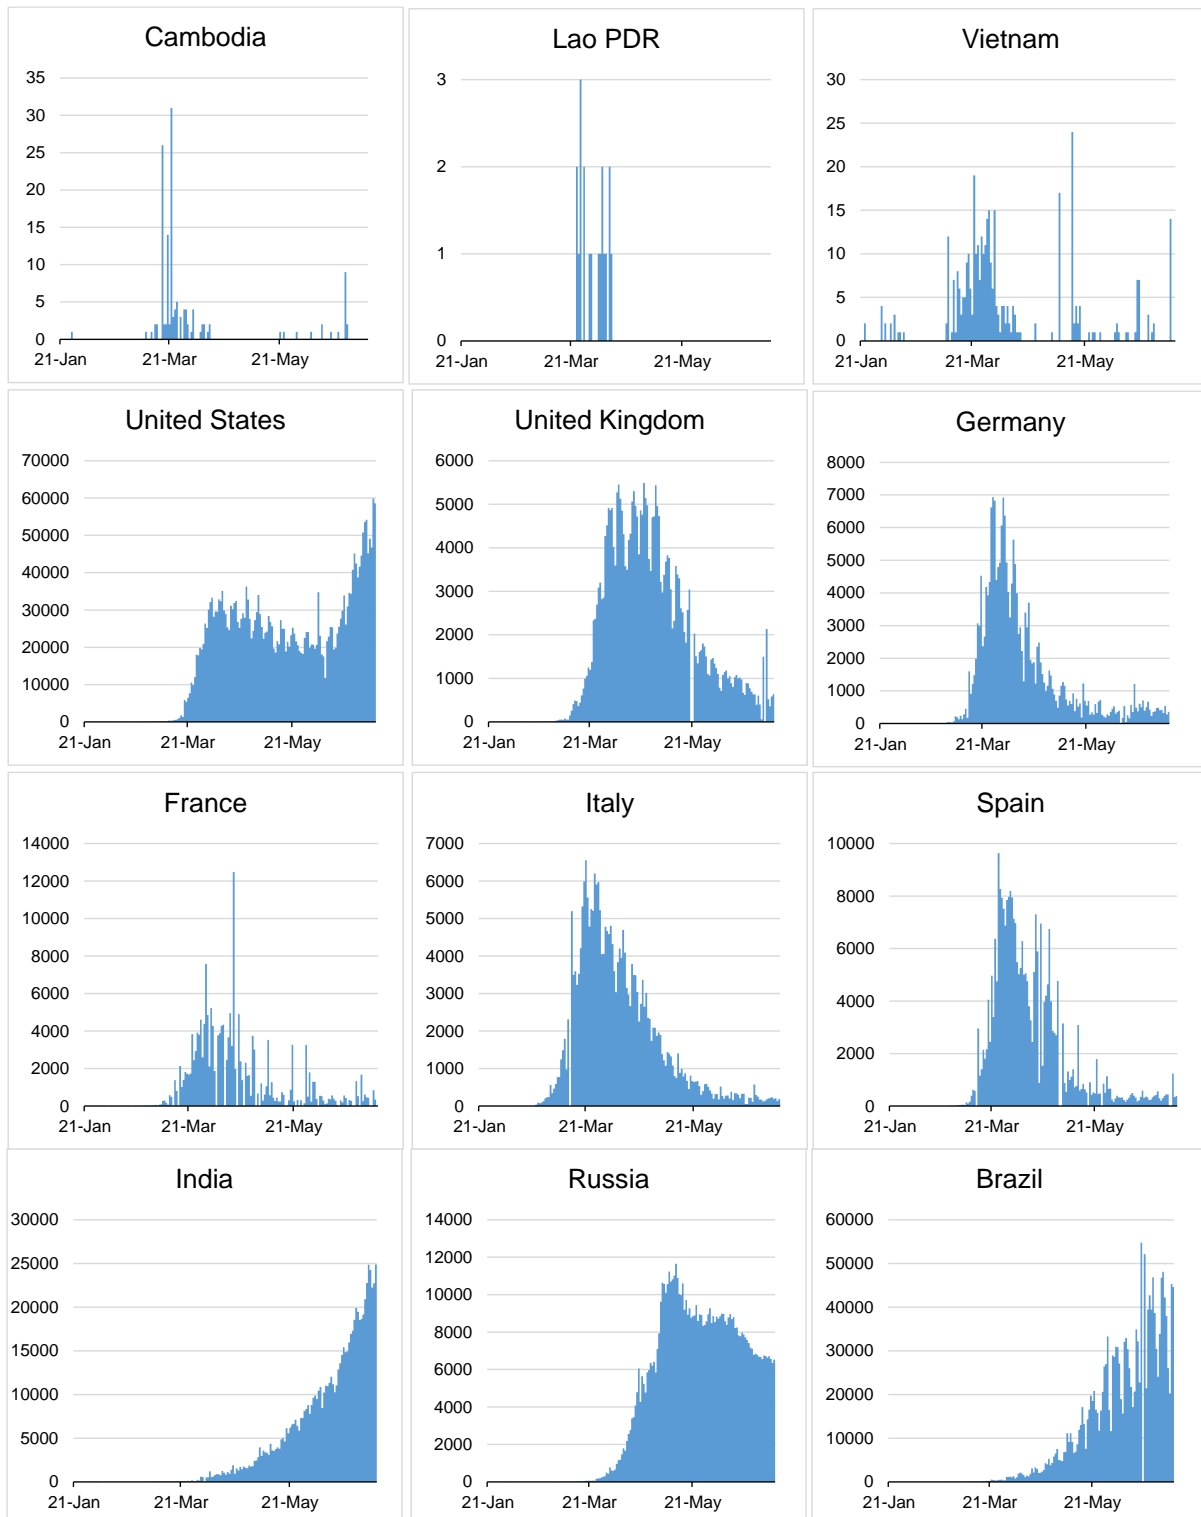

Note: The greener the heatmap, the greater the capacity of the healthcare system; the redder, the weaker the capacity.

**Figure 3. Selected Economies: Daily Confirmed Cases**

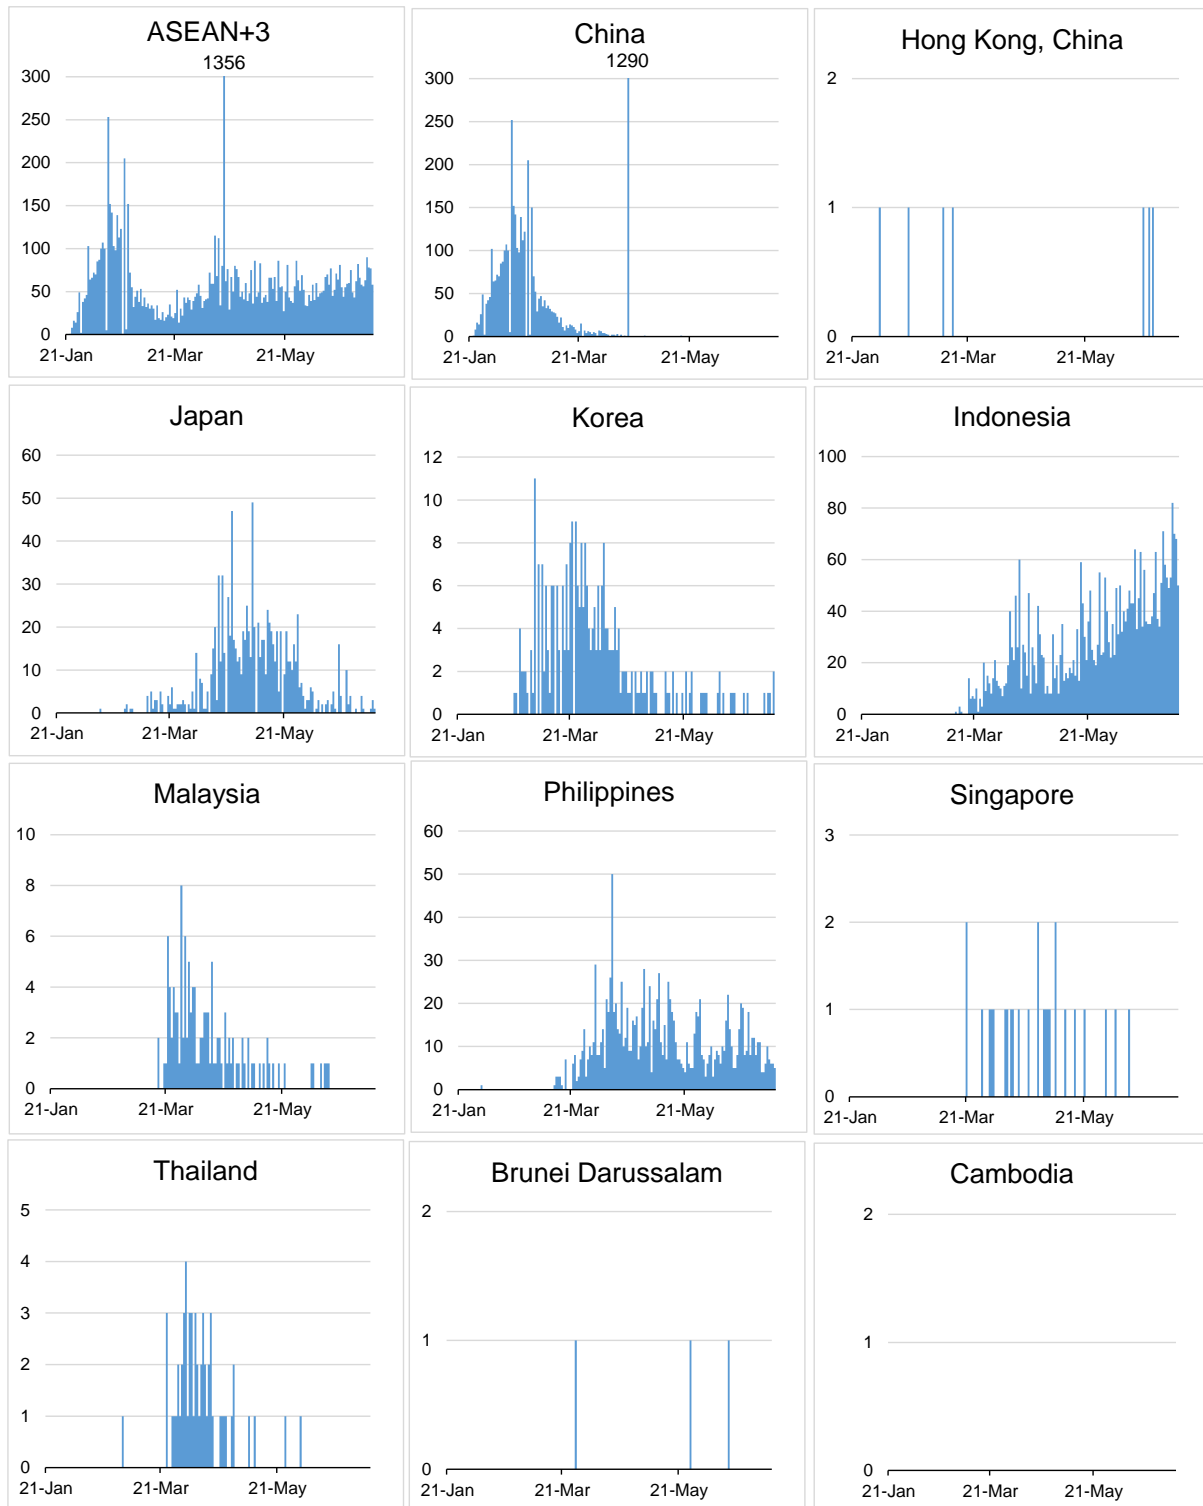

Note: For Singapore, the majority of the new confirmed cases belongs to work permit holders residing in dormitories. For the past one week (July 3-8), the proportion of this group of cases took up 88.9% of the total new cases.
