#### **Statistics**

- Worldwide confirmed cases <u>surpassed 8 million</u>, with more than <u>436,000 confirmed deaths</u>.
- **Singapore** confirmed <u>214 new cases</u>, its lowest daily increase since mid-April. The majority of new cases are still related to foreign worker dormitories. Cases in the broader community have remained in the single digits the last few days.
- Thailand did <u>not report any new cases or deaths yesterday</u>, marking the second time in five days without any new cases and 21 days without local transmission.
- Daily new cases in South Asia continue its elevated trend. India's daily incidence has
  remained above 10,000 for several days. It has passed the United Kingdom as the country
  with the fourth highest number of total cases. Daily new cases in Pakistan and Bangladesh
  also remain elevated.

### News

- **Singapore** will move to phase two of the reopening of its economy on Friday, which will include the resumption of most activities, including reopening of retail stores and dining-in at restaurants. Social gatherings of up to five people will be allowed.
- In China, new restrictions have been imposed in Beijing after a new cluster of infections emerged, including banning outbound travel of high-risk people and suspending some outbound transportation services. Contact tracing had linked the outbreak to the Xinfadi food market.
