## Statistics

- **Worldwide** confirmed cases surpassed 6.3 million, with more than 380,000 confirmed deaths.
- More than 1,600 new cases were reported across the **ASEAN+3 region** yesterday, most of them in **Indonesia, Singapore, and the Philippines**.

## News

- After reporting several new local cases linked to the same cluster, **Hong Kong** announced an extension of its social distancing measures by an additional two weeks, including a ban on public gatherings of more than 8 people. Hong Kong's travel ban on visitors has been extended until September; the mandatory quarantine on visitors from Mainland China has been extended until July 7.
- In **Japan**, Tokyo issued its first coronavirus alert under a new warning system. The alert does not reverse the recently eased restrictions, but calls for caution. If the number of infections was to increase further, some restrictions could be reinstated. The warning is based on several indicators, including the weekly average of daily new cases and the ratio of unknown infection routes.

## Overview of Confirmed COVID-19 Cases

Data as of 2/6/2020

Economy	Total Cases	Cases per 1M Population	New Cases	New Cases per 1M Pop.	New Cases (7-day avg) <sup>1</sup>	ΔNew Cases	Δ% New Cases	Total Deaths	New Deaths	Fatality Rate (%)	Total Recovered	Recovery Rate (%) <sup>2</sup>	Active Cases

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Recovery rate is a proxy for the stage of the cycle.
