<p>9,263,466 Total Cases</p> <p>4,630,391 Recovered Cases (50.0%)</p> <p>477,584 Deaths (5.2%)</p> <p>4,155,491 Active Cases (44.9%)</p>	<p>249,852 Total Cases</p> <p>182,240 Recovered Cases (72.9%)</p> <p>9,821 Deaths (3.9%)</p> <p>57,791 Active Cases (23.1%)</p>	<p>115,022 Total Cases</p> <p>106,536 Recovered Cases (92.6%)</p> <p>5,886 Deaths (5.1%)</p> <p>2,600 Active Cases (2.3%)</p>	<p>134,830 Total Cases</p> <p>75,704 Recovered Cases (56.1%)</p> <p>3,935 Deaths (2.9%)</p> <p>55,191 Active Cases (40.9%)</p>

Statistics

- Worldwide cases stood at 9,263,466 yesterday, of which around 477,000 people have died. United States and Brazil have reported the most infections, at 2.3 million and 1.1 million people, respectively.
- In the ASEAN+3 region, 2,461 new cases were reported yesterday, around 94 percent of which have been reported within the ASEAN.
- **Indonesia** saw 1,051 newly confirmed cases yesterday, of which 35 people have died. This brings its total number of cases to 47,896, with total deaths at 2,535. A recent spike in dengue fever cases, with more than 68,000 infections recorded as of yesterday, is also putting additional burden on the healthcare system.
- **The Philippines** reported 1,143 new COVID-19 cases yesterday, almost double than the previous day's new infections. This brings the country's confirmed COVID-19 infections to 31,825.
- **Japan** recorded 59 new cases yesterday, of which 31 were reportedly from its capital Tokyo. The increase in infections are being attributed to clusters in workplaces, and not just from entertainment establishments.*
- **India** reported a record-high 15,968 positive COVID-19 cases yesterday, the highest single-day spike since January. Maharashtra, the capital of which is financial centre Mumbai, remains the top hotspot in the country, accounting for nearly 30 percent of total cases in India.

News

- The New York Times has reported yesterday that **European Union** officials are currently deliberating between two potential lists of countries whose citizens can travel to the EU by July 1. The two lists of acceptable visitors, largely based on how their origin countries are managing the pandemic domestically, exclude the United States, but include China, Cuba, and Vietnam.
- Following the US decision to decline more incoming Chinese flights, the United States has also accused **India** of "unfair and discriminatory practices," after the latter failed to approve US carriers for charter operations due to the pandemic. As of yesterday, Indian aviation authorities are reportedly considering allowing some international carrier flights to resume, following Washington's criticism.

*Correction: The 55 new cases reported in Tokyo, in the earlier Monitor, are today's number, June 24, as of 2:20PM.

Overview of Confirmed COVID-19 Cases

Data as of 23/6/2020

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Recovery rate is a proxy for the stage of the cycle.
