## Statistics

- Almost 2,500 new cases were reported across the **ASEAN+3 region** yesterday, including around 1,000 each in **Indonesia** and the **Philippines**.
- **Japan** reported 110 new cases yesterday, the third time in the last four days it reported more than 100 new cases.
- No new cases were reported across the **BCLMV** economies.

## News

- The emergency decree in Thailand was extended another month until the end of July even as no local transmission has been reported in more than a month. Thailand will enter Phase 5 of its reopening plan tomorrow, allowing all schools, bars, nightclubs and other entertainment venues to reopen.
- **Myanmar** extended its travel restrictions, including a ban on all international commercial passenger flights, until the end of July.
- One of the eight vaccine candidates in China has received approval to be administered in the Chinese military. The vaccine, Ad5-nCoV, was developed in collaboration between the military's research unit and CanSino Biologics, and clinical trials proved it was safe and showed some efficacy. The vaccine is currently limited to military use only and large scale phase 3 clinical trials are still needed to better understand the immune response associated with the vaccine necessary for any wide spread approval.
- As the epidemic is accelerating again in the **United States**, many states have begun to postpone their reopening plans or have reinstated previously lifted restrictions, including heavily affected Texas, Florida, Arizona and California.

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Recovery rate is a proxy for the stage of the cycle.
