## Statistics

- **Worldwide** confirmed cases surpassed 6 million, with more than 370,000 confirmed deaths.
- More than 200,000 cases have been confirmed across the **ASEAN+3 region**, with more than 8,500 confirmed deaths.
- The **Philippines** reported its highest daily increase with more than 1,000 new cases on Friday, though the majority seems to be due to testing backlog, and not constituting newly discovered cases.

## News

- **Singapore** and **China** agreed to establish a fast-lane arrangement to facilitate essential travel for business and official purposes between the two countries. This is the first such arrangement for Singapore, but discussions around similar arrangements with Malaysia, Korea, Australia and New Zealand are ongoing. **China** and **Korea** established a fast-track entry arrangement last month.
- **Thailand's** Phase 3 of lockdown easing begins today, including shortened curfew hours, extended mall hours, some reopening of schools, gyms and cinemas.
- **Brunei Darussalam** has not reported any new cases for more than 3 weeks. Schools will gradually reopen tomorrow. Mosques reopened last week after closing for more than two months.
- Among the more than 100 vaccines against the coronavirus under development globally, an inactivated vaccine (which employs a killed version of the virus which still triggers an immune response) developed jointly by the Beijing Institute of Biological Products and China National Biotech Group Co., has completed Phase II testing. Safety and effectiveness have been shown among more than 2,000 vaccinated people. The vaccine will move to Phase III now, and may be ready to launch at the end of this year or early next year.
