

Tuesday, April 21, 2020

Statistics

- <u>5,787 new cases</u> were confirmed across the **ASEAN+3 region** from Saturday to Monday, with almost 3,000 newly confirmed cases in **Singapore**, and more than 1,000 newly confirmed cases in **Japan**.
- **Hong Kong** reported 4 new cases over the weekend, and no new cases yesterday for the first time since March 5.
- Vietnam, with 268 total confirmed cases so far, reported no new cases over the weekend.
- In **Malaysia**, 174 new cases were confirmed over the weekend, including 36 yesterday—the lowest daily increase since mid-March.

News

- In **Thailand**, the ban on sales of alcoholic beverages has been extended until the end of the month, likely to discourage social gatherings during Songkran, the Thai New Year's national holiday.
- The Greater Bandung region in West Java, **Indonesia**, will join the 'Bodebek' satellite areas of Jakarta to enforce large scale social restrictions (PSBB) from tomorrow. PSBB prohibits social gatherings and mass religious activities, mandates the suspension of schools and closure of non-essential businesses.
- In a new study, the <u>antiviral drug remdesivir</u> has been found effective in treating monkeys. Early treatment with the drug significantly reduced clinical disease and damage to the lungs of monkeys infected with the coronavirus.

Overview of COVID-19 Cases

Notes: New cases since last business day. Monday's data includes weekend data. Δ% refers to percentage change since last business day. Fatality rate measured as deaths per confirmed infections. 1/ Since January 31, 2020.

2/ As new data is recorded on business days only, Monday's data includes weekend data. For ease of comparison, ΔNew Cases for Monday's data is based on the 3-day Saturday-Monday average. 3/ Recovery rate is a proxy for the stage of the cycle.
