Statistics

- More than 170,000 cases in total have been confirmed across the **ASEAN+3 region**, with more than 7,400 deaths.

News

- In **Korea**, following a new cluster of cases traced to bars and clubs in a nightlife district in Seoul, plans to reopen schools have been postponed by one week.
- **Singapore** is easing some of its “circuit breaker” restrictions from today onwards. Certain retail stores, including hair salons and laundry services, are allowed to reopen amid safety measures. New infections remain at an elevated level, though around 90 percent of all cases relate to foreign workers in dormitories amid extensive testing. Newly confirmed cases outside the dormitories continue to decline, with 5 new cases confirmed yesterday.
- In the **Philippines**, incoming commercial passenger flights were temporarily suspended from May 3, due to congested quarantine facilities for Filipino workers returning from overseas. From this week onwards, international arrivals at Manila airport will resume with specific days assigned to inbound international charter and commercial flights. The restrictions will last until June 10.
- **China** and **Korea** recently set up a fast-track channel for business travellers between the two countries after mandatory health screenings. China is also looking at reviving business travel along similar rules with other countries in the region, including **Japan**.
- After reporting an increase in new cases after its steady decline over the last weeks, **Iran** re-imposed some of its social distancing measures in the most affected areas.

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

1/ Since January 31, 2020.

2/ Recovery rate is a proxy for the stage of the cycle.
