

Tuesday, April 28, 2020

Statistics

- Worldwide confirmed cases surpassed 3 million, with more than 211,000 confirmed deaths.
- <u>5,350 new cases</u> were confirmed across the **ASEAN+3 region** over the weekend (from Saturday to Monday), most of them in **Singapore** with 2,348 newly confirmed cases, and **Japan** with 1,324 newly confirmed cases. **Indonesia** confirmed 885 new cases.
- Outside the region, cases were rapidly growing in Russia and Brazil. **Russia** has now confirmed <u>more than 87,000 cases</u> and **Brazil** has confirmed <u>more than 67,000</u>.

News

- **Thailand's** state of emergency has been extended another month until May 31. The ban on all incoming international passenger flights was also extended until end of May. Domestic flights, on the other hand, will resume later this week with strict health controls and social distancing measures.
- Outside the region, another country to gradually end its lockdown is **New Zealand**, after recording new cases in the single digits for more than a week. While some non-essential businesses will be able to resume, strict social restrictions will remain in place.

Overview of Confirmed COVID-19 Cases

Notes: New cases since last business day. Monday's data includes weekend data. $\Delta\%$ refers to percentage change since last business day. Fatality rate measured as deaths per confirmed infections. 1/ Since January 31, 2020.

2/ As new data is recorded on business days only, Monday's data includes weekend data. For ease of comparison, ΔNew Cases for Monday's data is based on the 3-day Saturday-Monday average. 3/ Recovery rate is a proxy for the stage of the cycle.
