

Thursday, April 16, 2020

Statistics

- Worldwide confirmed cases surpassed <u>2 million</u> with 134,177 confirmed deaths and more than half a million recoveries.
- <u>1,633 new cases</u> were confirmed across the **ASEAN+3 region** yesterday. **Japan** confirmed 455 new cases, 297 cases were confirmed in **Indonesia**, and 230 in the **Philippines**.
- **Singapore** recorded its highest daily increase in confirmed cases yet with 447 new cases. 404 of these cases relate to foreign worker dormitories.
- Hong Kong confirmed only 5 new cases yesterday, keeping its increase to single digits for a few days now.
- In **China**, no new cases have been reported in **Wuhan** and **Hubei province**, the original epicenter, for more than a week.

News

- **Thailand** has again extended its ban on all incoming passenger flights until the end of the month.
- Several **European** countries have started or have announced easing some of their restrictions put in place to fight the coronavirus pandemic. While **Germany** will keep in place its social distancing measures, it will slowly lift some restrictions, allowing some small retail businesses to resume operations on Monday. Schools will gradually reopen on May 4.

Overview of COVID-19 Cases

Notes: New cases since last business day. Monday's data includes weekend data. Δ% refers to percentage change since last business day. Fatality rate measured as deaths per confirmed infections. 1/ Since January 31, 2020.

2/ As new data is recorded on business days only, Monday's data includes weekend data. For ease of comparison, ΔNew Cases for Monday's data is based on the 3-day Saturday-Monday average. 3/ Recovery rate is a proxy for the stage of the cycle.
