## Statistics

- **Worldwide** confirmed cases surpassed 5.5 million, with more than 350,000 confirmed deaths.
- In the ASEAN+3 region, **China** reported only 1 new case yesterday.
- The **Philippines** confirmed 350 new cases, its highest daily increase in more than 7 weeks.
- **Korea** reported 40 new cases, its biggest increase in almost 7 weeks. 36 of the new cases are linked to a distribution center for an online retailer which could emerge as a new cluster with more cases.

## News

- In **Korea**, the cluster of cases related to Seoul nightclubs which emerged in early May has been traced back and found to have spread over 7 levels. The number of cases in the cluster stood at 255 yesterday. Over 83,000 people have been tested in relation to it.
- In the **Philippines**, President Duterte has asserted that students will not be allowed to go back to in-person classes until a coronavirus vaccine is available.
- The announced travel corridor between **Australia** and **New Zealand** might be tested in the next few weeks as draft guidelines on safe flight operations will be finalized in early June. The Trans-Tasman travel bubble could provide guidance of how international flights can safely resume worldwide.

## Overview of Confirmed COVID-19 Cases

Data as of 26/5/2020

Notes: New cases since previous day. Δ% refers to percentage change since previous day. Fatality rate measured as deaths per confirmed infections.

<sup>1/</sup> Since January 31, 2020.

<sup>2/</sup> Recovery rate is a proxy for the stage of the cycle.
